## Editors' Notes

Excitement doesn't describe how our team feels about this Inaugural issue of Regeneration World Magazine. From all the wonderful insights in spiritual and indigenous realms to the amazing technologies provided by our sponsors— we hope you are as enticed by our content as we were in putting it all together!

~Nina Jagannathan- Editor-in-Chief

We are delighted to welcome you to the inaugural edition of Regeneration World Magazine!! Thank you for entrusting us with your curiosity, and we hope this magazine enriches both your spiritual and intellectual journey. We look forward to being your guide in this exciting world of endless possibilities.

~Professor Alan Tratner

# REGENERATION GLOBAL VIRTUAL REALITY WORLD

**Earthstock Enterprises** is proud to present its **Regeneration Global Virtual Reality World** to the public and are excited to debut it for the **Earthstock Summit 2024** being held in Crestone Colorado, and globally through multiple incoming live feeds.

The world itself was designed by **Earthstock's CIO Rachael Tice**, and built by world famous VR and Video Game Developer **Greg Edwards**, known for creating and building **Burning Man's Virtual Reality Event in 2020 BRCVR**.

They worked together to build a world based on an Indigenous medicine wheel, featuring 4 elemental stages, and 4 villages including an Eco Village, Indigenous Village, Healing Arts Village, and an Arts Village.

**Earthstock Summit 2024's 7-day event** will be streaming live into the VR world on the main Earth stage, while the Indigenous Eco Film Festival will be taking place on our Water stage simultaneously and after hours.

**Earthstock's Regeneration Global VR World** is proud to be hosted on the [Spatial.io](https://www.spatial.io) platform!

Those interested in attending the first ever event of its kind, can visit the VR space using the link:

<https://www.spatial.io/s/Earthstock-2024-66b66a85e2c982f2df947c76>

to watch the event live.

**Spatial** can be accessed on a VR headset, laptop, or phone by downloading the App. and using the link provided above.

**Earthstock's Regeneration Global VR World** will also incorporate the logos and imbedded websites of its sponsors, advertisers, and participants so visitors can look deeper into what they've seen during the event.

**Earthstock** also has future plans for the VR space as they team up with [Green2Gold](#)

and

[Regenerative Media TV](#)

to bring regenerative educational content and curriculums to the world!

**FOR IMMEDIATE RELEASE**

**Innovate & Elevate: Cannabis & AI Transforming Society**

**Seed the Change 2024 Unveils Groundbreaking Campaign to Revolutionize Cannabis and Artificial Intelligence**

**August 5, 2024 – Earthstock Summit, Crestone, CO** – Seed the Change 2024, a visionary initiative created by Michael Kamp, CEO of Honeycomb Hydro LLC, proudly announces the launch of its latest campaign, “Innovate & Elevate: Cannabis & AI.” This pioneering project is set to redefine the intersection of cannabis and artificial intelligence, driving transformative change across peace, justice, governance, and economics.

## Revolutionizing Societal Impact through Innovation

The “Innovate & Elevate” campaign harnesses the power of cutting-edge AI technology to unlock the full potential of cannabis. The initiative aims to tackle critical social issues and promote sustainable development, marking a significant milestone in Seed the Change 2024's mission to deliver impactful and innovative solutions to global challenges.

### Key Focus Areas of the Initiative:

- **Enhancing Peace and Justice:**
  - **AI-Powered Conflict Resolution:** Utilizing AI to mediate conflicts and build peaceful societies.
  - **Legal System Innovations:** Employing AI to enhance fairness and equity in judicial processes.
- **Transforming Governance:**
  - **Smart Governance:** Implementing AI for data-driven decision-making and increased transparency.
  - **Public Engagement:** Leveraging AI tools to engage and inform citizens more effectively.
- **Driving Economic Growth:**
  - **New Opportunities:** Exploring how AI and cannabis intersect to create job opportunities and stimulate economic development.
  - **Sustainable Practices:** Promoting eco-friendly cultivation methods and integrating green technologies.

### **Innovative Projects and Future Vision**

The “Innovate & Elevate” campaign will showcase various groundbreaking projects, including advancements in sustainable cannabis cultivation, AI-driven community support programs, and research into the economic benefits of cannabis legalization. Future initiatives will continue to explore the possibilities of AI and cannabis, setting the stage for a more just, equitable, and sustainable world.

### **About Seed the Change 2024**

Seed the Change 2024, created by Honeycomb Hydro LLC, is dedicated to fostering innovative solutions to social and environmental challenges. Through strategic partnerships and visionary projects, the initiative strives to drive meaningful change and empower communities worldwide.

## EARTHDAY 2025

CELEBRATING 55 YEARS OF EARTHDAY &  
GREEN2GOLD NUGGETS MAGAZINE

*"We are at an inflection point for humanity and the Life Support Systems of "Spaceship Earth" on which we utterly depend on for survival, along with the millions of other lifeforms we are interconnected to...and we have been poisoning these systems, and worst, are changing the very climate of our planet, and thus suffering unprecedented Climate Change driven disasters.*

*The true SOLUTION is to create local, national and worldwide inclusive Green Economies powered by Renewable Energy in all forms, Regenerative Agriculture, and to **BUILD BACK GREEN** for resilience, independence, sustainability, and economic development in balanced harmony with the environment. Our greatest tool to foster this is creating local Clean Tech Micromanufacturing Hubs. The prototype for this is being developed for Lahaina, Maui---the site of one of the most tragic environmental disasters in modern history."*

- Professor Alan Tratner

"We travel together, passengers on a little spaceship, dependent on its reserves of air and soil, all committed for our safety to its security and peace; preserved from annihilation only by the care, the work, and, I will say, the love we give our fragile craft. We cannot maintain it, half fortunate, half miserable, half confident, half enslaved by the ancient enemies of man, half free in a liberation of resources undreamt of until this day. No craft, no crew can travel safely with such vast contradictions. On their resolution depends the survival of us all."

- Adlai Stevenson, US ambassador to the  
United Nations, 1964

## HOW IT STARTED

In 1970, EarthDay was formed with some 20 million citizens participating. It was a TEACH-IN on the problems of the Biosphere that sustains life for us all - the pollution of air, water, land, and food. Earth Day has since become the largest civic event in the world each year, with billions of people involved, and more than 100 nations participating. Sadly, the challenges our planet faces now are more severe than ever before: Climate Change, dwindling resources, shortages of food and clean water, poverty, environmental justice, underdeveloped nations struggling to survive, and the increase in extinctions of many plants and creatures in the global ecosystem.

Yet, the solution has been with us since the first EarthDay: a sustainable, resilient and inclusive global green economy...powered by nature -based Renewable Energy. of humanity by helping to fund Green2Gold initiatives.

2024 WWW.GREEN2GOLD.ORG

## WHAT YOU NEED TO KNOW!

Our goal is to make the EARTHCOIN an ongoing resource of engagement; allowing each concerned citizen of our beautiful planet the opportunity to make a statement for today and help to create a bright, evergreen tomorrow for all of us.

Receive an EarthCoin NFT for a \$30 donation. This donation can be tax deductible.

WHERE and HOW can I get the EarthCoin NFT?

# How to bring a Green2Gold Incubator To Your Community For Sustainable Inclusive Economic Development

**GREEN2GOLD**

Impact Business Incubators And Accelerators

Green2Gold, a non-profit 501(c3) **global** incubator creator with 54 years of experience in nurturing business development at locations around the world. Our Green Entrepreneurial Innovation Hub is dedicated to advancing Mixed Technology and Mixed Use entities. These include but not limited to: Aerospace, Agriculture, Biotechnology, Energy, Green Chemistry, Healthtech, Renewable Energy of All Types, The Green Economy, Watertech, and more...not to mention a whole spectrum of commercial, industrial, governmental products and services. Green2Gold's incubator process leverages our years of experience in incubating and hatching successful impact companies, products, and technologies that represent billions of dollars of commerce and thousands of patents. Additionally, we are unique on this planet in that we incubate impactful **nonprofits** that are socially and environmentally responsible, and a unique synergy and symbiotic relationship often grows between the ventures and the nonprofits. Green2Gold is inclusive in every way imaginable and has been since helping found **EarthDay** and the **First International United Nations Conference on the Human Environment**.

## ***HarmFree EMPORIUM™***

***HarmFree to Humans, Animals, Plants, and Planets!™***

HarmFree Emporium is part of Green2Gold (G2G) - a global non-profit scientific, educational, and R&D Green Tech incubator that played a pivotal role in establishing Earth Day in 1970 and the First International UN Conf. on the Human Environmental Conference, The Green Business Conferences of Eco Expo and the National Marketplace for the Environment. Through the years, Green2Gold has expanded into a globally impactful organization with planet-wide responsibility as our nucleus. Thus, we are approached with numerous projects worldwide, which we efficiently manage through specialized teams headed by experts in different fields.

We are excited to announce several revolutionary initiatives, one launched during the 2020 50th EarthDay BD, and from our global 2024 EarthDay festivities, emphasizing the true revolution in localized sustainable economic development for our world. One such initiative is the **HarmFree Emporium** by **Regeneration Global**.

**HarmFree Emporium—Harm Free to Humans, Animals, Plants, and Planet—** is our new virtual Global Marketplace for current and new products that are green, sustainable, non-toxic, bio-based, cleantech, recyclable, repurposable, compostable, and use minimal recycled content packaging if needed. This initiative is a key element in transitioning to a global green economy. **HarmFree Emporium** offers an unparalleled platform for launching new products, expanding product lines, and interacting with our global media and public relations experts. ***HFE is propelled by REGEN MEDIA—global RM TV, digital Regeneration World Magazine, multiple Radio and Podcast programs, Events, Platforms, Websites, and a Virtual World, along with partner media.*** It provides exposure to consumer and commercial customers, crowdfunding platforms, impact platforms, green & sustainable organizations, social media, and more.

We are open to collaboration allowing you to gain access to a broader audience and benefit from the extensive resources we have to offer all while supporting the planet-forward efforts of Green2Gold, Regeneration Global, and the mission of the HarmFree Emporium.

# Accelerate 2050

Climate · Impact And More!

- a sustainatopia event

## CALL TO SPEAKERS

LOS ANGELES (Nov 6th-8th)

[www.accelerate2050.org](http://www.accelerate2050.org)

ACCELERATE 2050 will feature more than 150 top speakers (investors, companies, consultants, non-profits, government officials and other top thought leaders) focused on accelerating the adoption of Climate, ESG, and Impact solutions on a global basis- in addition to the latest developments regarding Innovation/AI.

### TRACKS:

- Climate Investing & Ecosystems in the Americas
- Impact Investing 3.0 (Maximizing Impact)
- ESG 2024: Lessons Learned/Progress Realized
- Innovation & AI: How GOOD Can Prevail
- Regenerating Cities & Communities for 2030

### About Us

Having hosted more than 20 major events, SUSTAINATOPIA event series remain one of the leading events in the world for social, financial and environmental sustainability & impact. Attendees have participated from more than 60 countries.

Consisting of both a mega-conference and a broad-ranging Festival, SUSTAINATOPIA brings together the global ecosystem of social, financial and environmental sustainability & impact like no other singular event.

electric & hybrid  
aerospace  
TECHNOLOGY SYMPOSIUM

October 30 & 31, 2024  
Frankfurt, Germany

Save the dates!

FRANKFURT, GERMANY

Electric & Hybrid Aerospace Technology Symposium is the world's leading international conference and exhibition dedicated to ultra-low-emission aircraft technology and full-electric flight possibilities.

Launched in 2015, Electric & Hybrid Aerospace Technology Symposium has firmly established itself as the premier event for high-level aerospace engineers and designers, leading research academics, propulsion engineers, aircraft manufacturers, heads of electrical system design and engineering, and anyone working on developing the future of aircraft technology. More than 70 expert speakers from around the world will present their views and current findings. Come and join over 200 attendees for two days of high-level networking and knowledge sharing.

The two-day event will cover all aspects of aerospace activity, from general aviation, eVTOL and smaller regional aircraft to larger commercial airliners. Its purpose is to highlight the fast-paced development of hybrid propulsion, electrical subsystem architecture and more electric aircraft, and to discuss the vast research into the increased electrification of aircraft and the possibilities and challenges that brings.

With over 40 exhibitors displaying the very latest technologies, visitors can expect to see cutting-edge solutions to decarbonize the aerospace industry, working toward the ACARE 2050 goal of climate-neutral air mobility.

The Electric & Hybrid Aerospace Technology Symposium papers will focus on but will not be limited to:

- The possibilities created by aircraft hybridization
- Commercial aircraft application possibilities and research
- eVTOL propulsion and aircraft design
- Battery technologies
- Electric motor technologies
- More electric aircraft for non-propulsive systems

- High-speed engine and turbofan technologies
- Real-world fuel saving possibilities
- Fuel cell technology
- Energy storage systems
- Increasing flight range through hybridization
- The possibilities of pure electric-only commercial and military flight

- Safety and legislative considerations
- Case studies on existing global electric and hybrid research programs
- Overcoming engineering challenges
- Best design practices
- Investment possibilities
- Additional advantages of increased electrification
- Range-extender technologies

# VOLUNTEER

Points of Light is committed to empowering, connecting and engaging people and organizations with volunteer opportunities that are meaningful and impactful.

Points of Light, in partnership with AmeriCorps, acknowledges and supports volunteerism and civic engagement through the President's Volunteer Service Award. They thank organizations and volunteers for their contributions, especially during challenging times, and encourage continued acts of service to strengthen communities. The message highlights the importance of volunteering, offers resources for finding opportunities, and invites sharing volunteer stories using #PVSA on social media. Points of Light will provide updates on events, programs, and research through their newsletter to further inspire and support volunteer efforts.

## THE PROBLEMS WE FACE ARE IMMENSE

The challenges facing the world today are far-reaching and complex, and the solutions often feel out of reach. To tackle society's greatest challenges and build a better future, we must engage a wide range of people to make a positive difference in the world.

The United Nations Sustainable Development Goals provided a unified approach to solving our most urgent problems, and asked the world to focus their efforts toward building an inclusive, sustainable and resilient future for all.

## Speed Dating with Investors

### Speed Dating with Investors Presented by Pismo Ventures and Withum

Speed Dating with Investors is designed to provide founders with the opportunity to pitch to many investors in one single event.

Limited spots, register today!

The event will feature the following:

- Check-in and Networking
- Presentation by Withum
- Dating Investors: Investors ready to date one-on-one with founders
- Dating Founders: 60 startups only, first come first serve, will pitch to a minimum of 7 investors one at a time 1.5-minute pitch followed by 2.5 minutes of Q&A and feedback.
- Startups will be grouped into 3 groups. Each group, A, B, and C will consist of 20 startups.
- Speed dating starts with group A. Each group will be able to pitch to investors for approximately 40 minutes giving each startup 4 minutes with each investor followed by 1 minute to transition from one investor to the next. During the transition time, investors will have the opportunity to rate the startups on the Demo Day app. Then we transition to group B then group C. While each startup group is pitching to the sitting investors, the startups that are in the waiting groups will have the chance to network and connect with other investors in the room.
- Food and refreshments will be provided

## Going Deeper: Catalyzing Systems Change

The challenges faced by the Impact Investment community are intricate and often rooted in systemic causes, demanding adaptive mentalities to address them. However, the implicit and sometimes explicit rules governing the establishment, management, and transactions of investment funds tend to favor simpler, more easily measurable solutions. This tendency is also evident in public narratives surrounding entrepreneurs' journeys, pitch competitions, and attention-grabbing headlines.

The theme of SOCAP24, Going Deeper: Catalyzing Systems Change, encourages our community to critically examine our practices and challenge ourselves to delve deeper. Depth is our mandate for bringing about structural and irreversible change in the social, political, environmental, and economic systems from which the most pressing challenges emerge. As a community, SOCAP24 is poised to catalyze systemic change.

Recognizing that systemic shifts don't result from a single action is essential. Instead, the most effective examples often arise from a combination of collective action, systemic acupuncture, breaking silos, evolving values, trust, and resources. Rather than focusing on isolated solutions, a systems change approach seeks to comprehend and influence a system's underlying structures, relationships, and dynamics to create lasting, positive impact.

In a year like 2024, it is more critical than ever for our community to extend our gaze beyond our immediate spheres of influence and contribute to collective action, democratic dialogue, and policy leaps that can bring about impactful, scalable change.

# *Are you struggling to reach your audience?*

In a digital world brimming with innovation, the brilliance of complex technologies often gets lost in translation, leaving a gap wide open between creators and their audience.

Tech leaders, from CTOs to Directors of Communications, grapple with this everyday challenge: how to make groundbreaking concepts in cybersecurity, engineering, and web3 not just seen but truly understood.

They face the daunting task of converting dense technical data into engaging, accessible narratives, striving to turn potential confusion into clarity, engagement, and action.

Enter Wit's End Studios, where complexity meets creativity, and technical jargon is transformed into captivating stories. Leveraging the unique Feynman Technique alongside an interdisciplinary approach, we specialize in distilling intricate technical details into clear, digestible content that resonates with every reader.

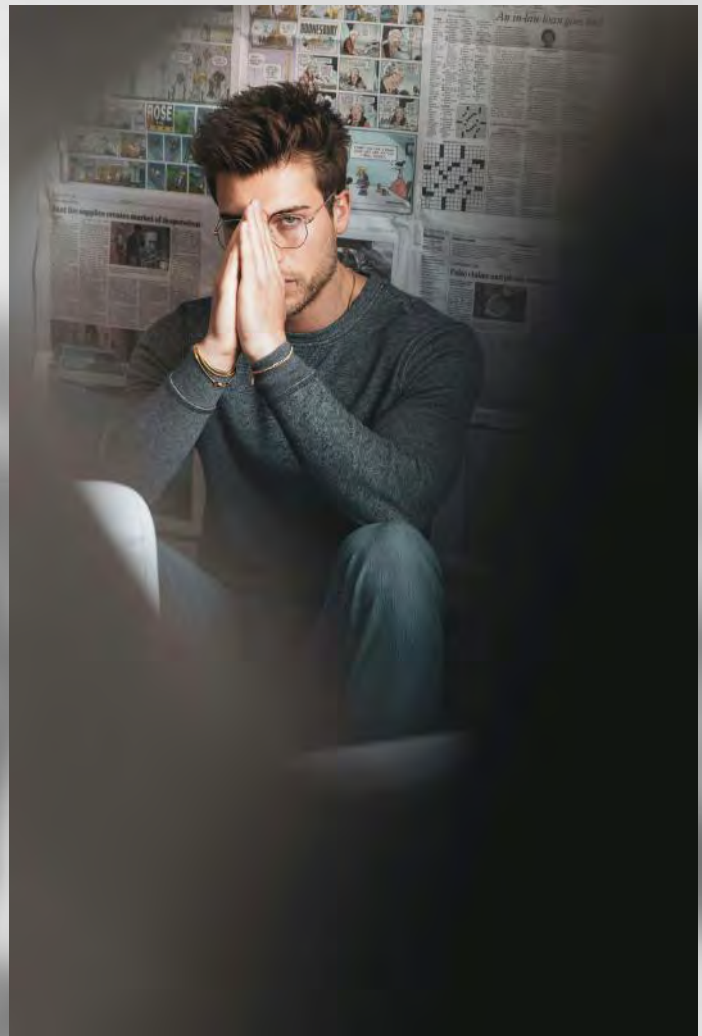

Our mission is to bridge the communication chasm, enhancing internal and external comprehension, fostering stakeholder trust, and ultimately, driving your project approvals and collaborations forward.

At Wit's End Studios, we're not just content creators; we're architects of understanding, ready to illuminate the path from complexity to clarity for your organization.

If you are at your "wit's end", contact us today!

## Did you know there's a 100% free fundraising software for your nonprofit? Introducing, Zeffy.

Green2Gold is partnering with Zeffy, the only 100% free fundraising platform for nonprofits in North America. With Zeffy, every cent you raise goes directly to your nonprofit—no hidden fees whatsoever. Join over 25,000 nonprofits who trust Zeffy to support their missions.

### — What is Zeffy?

Zeffy, a registered B Corp™, is the only 100% free fundraising software for nonprofits. Too many nonprofits can't access modern technology because their budget just won't allow it. We believe your mission deserves more. We are focused on developing the best online fundraising platform, and offering it for free so that every nonprofit can focus on maximizing its impact.

### — How is Zeffy free?

We offer our technology services to nonprofits 100% free of charge so that donations are used solely to support your mission. In return, we give donors the option to make a voluntary contribution to us.

At the payment confirmation step, donors have the option (but are never obliged) to contribute to Zeffy. This is our only source of revenue and allows us to cover all of the fees for the 5,000+ nonprofits that fundraise with Zeffy.

Regardless of whether donors add a voluntary contribution, 100% of the money fundraised on Zeffy will go into your bank account.

### — Am I eligible to fundraise on Zeffy?

The only requirements to use Zeffy, are:

- Be a registered nonprofit or charity in Canada or the United States. Have a bank account that belongs to your nonprofit organization which you can connect to your Zeffy account.
- In the US, you do not have to have 501c3 status to use Zeffy. The only requirements are listed above. You will be asked to provide your EIN number as proof of your nonprofit status, but no matter the type of nonprofit or charity, you can use Zeffy for fundraising.

Green2Gold is inviting you to use Zeffy!

## Zeffy is the only 100% free fundraising software for your nonprofit.

Sign up for free

### It all started 7 years ago...

"When I immigrated to Quebec, I felt very fortunate and wanted to give back to the community. I decided to volunteer, but quickly realized that it was a challenge to find opportunities to do so.

This seemed like a huge gap, so I reached out to my geek friend Tribut, and together we created a platform that made it simple and accessible to volunteer. With that, the first of many free Zeffy products was born.

We immediately fell in love with working with these nonprofits. We were on a mission to help all nonprofits change the world, for free!

— François, co-founder of Zeffy

# TITLE3 FUNDS™

## TechCon SoCal

MAY 24<sup>TH</sup> 2024 - SAN DIEGO, CALIFORNIA  
INNOVATION · INVESTMENTS · INSPIRATION · INFLUENCE

**I AM SPEAKING**  
at TechCon SoCal 2024

Top tier innovation conference with an elite gathering of investors, industry leaders and innovators.

**BRUCE VIRGA**

CEO  
Title3 Funds

FOLLOW US ON

Register

[www.techconsocal.com](http://www.techconsocal.com)

Title3Funds is a funding portal owned and operated by Fundivations, Inc, which is registered with the US Securities and Exchange Commission (SEC) as a funding portal (Portal) and is a member of the Financial Industry Regulatory Authority (FINRA).

Investments in private companies and securities sold under Title III are speculative, generally illiquid, and are particularly risky and may result in total loss of invested capital. The past performance of a security or a company does not guarantee future results or returns. Only investors who understand the risks of early-stage investment and who meet the investment criteria outlined by Title3Funds.com may invest.

Title3Funds is not a Registered Investment Advisor (RIA) nor do we make specific security recommendations. It is the investors' responsibility to conduct their own due diligence or seek help from their financial advisor.

## WHY TITLE3 FUNDS?

- QUALITY OVER QUANTITY**  
We thoroughly screen our partners, and selectively choose those that meet our quality standards.
- EXCLUSIVE ACCESS**  
Anyone can view our fundraising campaigns, but in order to invest you must be a registered member.
- MINIMUM RAISE**  
We aim to work with companies looking to raise a minimum of \$100,000, giving businesses with enough capital to reach their goals.
- SELECTION PROCESS**  
We focus on the company financials, their goals, and their future.
- LEVEL PLAYING FIELD**  
An investment marketplace where startups and investors come together for a common cause.
- ACCOUNTABILITY**  
A commitment to improving the process, with the latest technology to improve efficiency and accountability across the board.

**TD SMART**

New Offering

INVEST NOW

**MIN INVESTMENT:** \$250

TD Smart's mission is to democratize real estate investment, providing non-accredited investors an accessible entry point into a transparent, fee-free platform. Our goal is to leverage our expertise, extensive network, and streamlined processes to build a robust, diversified portfolio.

**CARA WINES**

New Offering

INVEST NOW

**MIN INVESTMENT:** \$200

Cara Wines is committed to bringing a taste of Italy to wine lovers and connoisseurs alike. Their wines are carefully curated from the finest award-winning Italian vineyards that uphold the highest possible standards.

**CUBCRAFTERS**

INVEST NOW

**MIN INVESTMENT:** \$397.85

CubCrafters is the industry's leading designer, manufacturer and innovator of adventure aircraft in the world. For more than 40 years, superior quality, industry-leading innovation, and independent thinking have been the hallmarks of everything we do.

Title3Funds has been featured in Forbes, Fast Company, Yahoo Finance, MSN, Business Insider, Crowdfunder, and other leading trusted publications both entrepreneurs and investors read and respect.

# Preferrals Resource Directory

## DEAR RESOURCE FOR GREEN2GOLD INCUBATOR MEMBERS:

We are recreated our famous **PREFFERALS RESOURCES DIRECTORY (PRD)** to be part of all Members Kits/Renewals and presented in our global Green2Gold Nuggets Newsletters ongoing in each issue and on our website.

PRD is for fellow members, vendors, and supportive alliance resources that offer professional services and products to our 100,000 plus worldwide membership of inventors, entrepreneurs, innovators, small business, and our more than 350 Non-Profits, that are socially and environmentally responsible, we have incubated.

With climate change and the demand for renewable energy, sustainability and green tech/products increasing, Green2Gold is experiencing new growth and talent depth.

To participate in the PRD 2023/2024 which is FREE to those who have referral fees with G2G, and/or make donations, sponsorships, and contributions, please review the following:

- 1- Contact HQ to confirm your status
- 2- Provide a one- or two-page PDF about your offerings, credentials, etc. and any special discounts or programs available to members of G2G.
- 3-Also consider submission of an informational, educational article that reflect your area of expertise and solutions for our members.

Thank you for your participation that will bring more promotion and business to you, help support Green2Gold (founded in 1970) and propel our members' success and impacts.

Be Safe & Well!

# GREEN TECHNOLOGY

## Revolutionizing Land Ownership: Blockchain and Fractional Investment

By Jon Connors

Earth activists, often passionate yet constrained by funds, find a promising pathway in blockchain-powered fractional land investment. This innovative approach democratizes land ownership, allowing for collective stewardship and conservation of environmentally significant areas.

### Understanding Security Tokens in Real Estate

Security tokens are transformative, offering a compliant and efficient way to fractionally own real estate assets. These digital assets represent shares in physical properties and are regulated similarly to traditional securities, ensuring legal integrity and investor protection.

### Case Study: RealT.co – Revolutionizing Real Estate Investment through Tokenization

RealT.co is at the forefront of the real estate industry's digital transformation, pioneering the use of blockchain technology to tokenize real estate properties. This case study explores how RealT.co leverages blockchain to facilitate fractional ownership, improve liquidity, and streamline the investment process in the real estate market.

### Company Background

Founded in 2019 and based in the United States, RealT.co aims to democratize access to real estate investment through the issuance of security tokens on the Ethereum blockchain. These tokens represent fractional ownership shares in property assets, making real estate investment accessible to a broader audience globally.

### Solution

RealT.co introduced a platform that allows for the buying, selling, and trading of fractional real estate interests through security tokens. Each token represents a legally compliant share of ownership in a specific property, backed by a real-world asset. Key components of RealT.co's solution include:

- Tokenization of Property: RealT divides each property into fractional shares that can be bought and sold as tokens on the Ethereum blockchain.
- Regulatory Compliance: Each token is compliant with securities law, ensuring that all transactions are legally sound.
- Automated Revenue Distribution: Rental income from properties is distributed automatically to token holders, proportional to their ownership, through smart contracts.
- Global Accessibility: By leveraging blockchain technology, RealT.co enables global investors to participate in the U.S. real estate market with minimal entry barriers.

- \$180 million in real estate assets on the platform.

## Implementation

RealT.co's platform implementation involves several steps:

- Property Acquisition: Properties are sourced and acquired by RealT.co, which then handles all due diligence and preparation for tokenization.
- Token Issuance: Once a property is acquired, RealT.co mints a type of Ethereum tokens corresponding to shares of the property.
- Sales and Distribution: Investors can purchase tokens directly from RealT.co's platform, using cryptocurrencies or fiat currencies.
- Ongoing Management: RealT.co manages the properties, dealing with maintenance, tenant relationships, and compliance, while technology handles the backend distribution of profits.

After learning how RealT.co does it, let's switch gears to how you can use their model: create an LLC then tokenize the shares with a security token.

## Key Platforms for Creating Your Own Security Tokens

- Securitize: Simplifies the creation and management of security tokens, adhering to regulatory standards, and offering a user-friendly interface for non-tech-savvy users.
- Polymath: Provides a suite of tools to create security tokens with an emphasis on compliance, aiding users in navigating the complex landscape of securities law.
- Tokeny Solutions: Focuses on delivering compliant tokenization solutions for real estate and other high-value assets, enabling broad participation through its accessible platform.

## The Potential of Fractional Ownership for Land Conservation

While specific examples of using security tokens for land conservation are not well-documented, the concept holds significant promise. Fractional ownership through blockchain can make it feasible for conservation groups to purchase and manage land sustainably. This method allows for the pooling of resources from a wide base of stakeholders, including those traditionally excluded from such investments due to financial barriers.

## Upcoming Discussion at Earth Stock Summit

Join me for "Land Governance Innovation" at the Earth Stock Summit on Wednesday, August 21st, where we will explore how decentralized technologies foster sustainable models of land governance, emphasizing collective ownership and conservation.

For those in the environmental activism sphere, blockchain technology offers a scalable and practical solution for land conservation. By leveraging platforms like Securitize, Polymath, and

Tokeny, communities can secure collective ownership of land, ensuring it is preserved for future generations while remaining compliant with U.S. law. This model not only enhances liquidity and accessibility but also empowers communities to protect and manage land according to shared ecological values.

---

As the founder of [LessTax.US](#) and [Restore-a-thon](#), and a steward at Blockchain & AI for Ecology, I am deeply committed to promoting sustainable practices through innovative technology. Our upcoming session at the Earthstock Summit promises to be a groundbreaking discussion on reshaping land governance for the betterment of our planet.

**Working to equitably deploy and invest in innovative climate solutions that heal the Earth.**

Seneca Environmental is a division of Seneca Holdings, which delivers over \$400M in products and services annually.

Wholly owned and controlled by the Seneca Nation, we provide income to support the on-territory needs of Seneca Nation members. We provide innovative climate solutions for Native nations, corporations, and underserved communities across the U.S.

- ✓ PRIORITIZING EARTH-HEALING OUTCOMES
- ✓ DELIVERING EXCEPTIONAL RESULTS
- ✓ CREATING TRAINING AND EMPLOYMENT
- ✓ INVESTING FOR THE SEVENTH GENERATION

**HOW WE CAN HELP YOU**

**Achieving your goals while maximizing benefits to the environment and society.**

**STRATEGIC ADVISORY SERVICES**

We help clients develop collaborations, strategies, and projects that meet the goals of diverse internal and external stakeholders.

**SOLUTION DEVELOPMENT AND DELIVERY**

We have the capacity, experience, and partners to deliver a wide range of Earth-healing solutions.

**CONSULTING AND PROJECT MANAGEMENT**

We leverage our experience and strength in project execution to deliver results with innovative climate solutions.

**NATIVE ENGAGEMENT**

We bridge trust gaps with Native communities on environmental project planning and delivery.

**WHY SENECA ENVIRONMENTAL?**

- Our portfolio of companies delivers over \$350M in projects annually. We have the infrastructure, financial stability, and experience to achieve successful project and community outcomes.
- We work with organizations that embrace meaningful collaboration while meeting their ESG goals. We categorically reject "greenwashing" and tokenization of our Native ownership.
- Doing business with a Tribally owned enterprise has the additional benefit of supporting the needs of Indigenous people. We are a profitable company generating revenue that supports Seneca Nation members.

- ✓ THE SIZE AND EXPERIENCE TO DELIVER
- ✓ MEETING ESG GOALS WITH VERIFIABLE BENEFITS
- ✓ DIRECTLY SUPPORTING THE SENECA NATION

## Reimagine Our Future

Submit a brief fact sheet detailing your innovative idea(s) to address a sustainability problem anywhere in the world.

Education

Energy, Environment & Resources

Stage:  
Enter

Prizes:  
\$8,500

SOLVE THIS CHALLENGE

### Overview

The global sustainability crisis requires innovative solutions that promote human flourishing without compromising the natural systems upon which we depend. For this competition, undergraduate students will rise to this challenge by developing an innovative plan or solution that promotes one or more of the United Nations' Sustainable Development Goals (SDGs) while taking account of other relevant SDGs. In doing so, you will address a particular sustainability problem or challenge which could be at a local, regional, national, or international level anywhere in the world.

Your plan or solution could be a program for a government or private entity, proposal, product or service, system, business plan, event, social media platform, app, game, law, organization, educational initiative, or something else. Your plan or solution must be presented in the form of a fact sheet.

We welcome submissions from individuals and teams of undergraduate students from all participating universities and colleges. The participating universities and colleges are: **University of Birmingham; International Humanitarian University, Odessa, Ukraine; University of Illinois, Chicago; University of Illinois, Springfield; University of Illinois, Urbana-Champaign; University of Pretoria; University of Turin; Vienna University of Economics and Business; Waubensee Community College; Zhejiang University.**

Undergraduate students from other universities or colleges may serve as members of teams that enter the competition provided the lead student is enrolled at a participating college or university. (For more details see "Competition Rules: Eligibility").

# REIMAGINE

Clean Energy Competition

# THE AVERAGE AGE OF ENERGY PROJECTS

## In U.S. Interconnection Queues

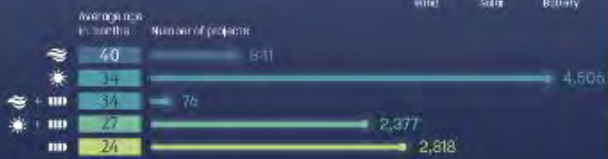

August 7, 2023

Interconnection queues are waiting lists of energy projects undergoing impact evaluations before being allowed to proceed with construction.

### Average Queue Duration by Project Type

February 23, 2023

Reducing the time renewable energy projects spend in interconnection queues will accelerate the transition to a low-carbon energy future.

According to the US Department of Energy, there are some ways the backlog can be mitigated:

- Enhance data
- Streamline the approval
- Promote co-siting
- Maintain relationships

# The U.S. Clean Energy Backlog

The U.S. has almost 2 million megawatts (MW) of clean energy capacity on hold in interconnection queues, seeking connection to the electrical grid.

Clean Energy Capacity in Queues, 2022  
1.8 million MW

U.S. Existing Electric Generator Capacity  
1.2 million MW

## Clean Energy Capacity in Interconnection Queues by Transmission Region, in Megawatts (MW)\*

\*2022 - Interconnection queues as of February 28, 2023

The average time projects spend in the queue has risen from 2.1 years in 2015 to 3.7 years in 2021.

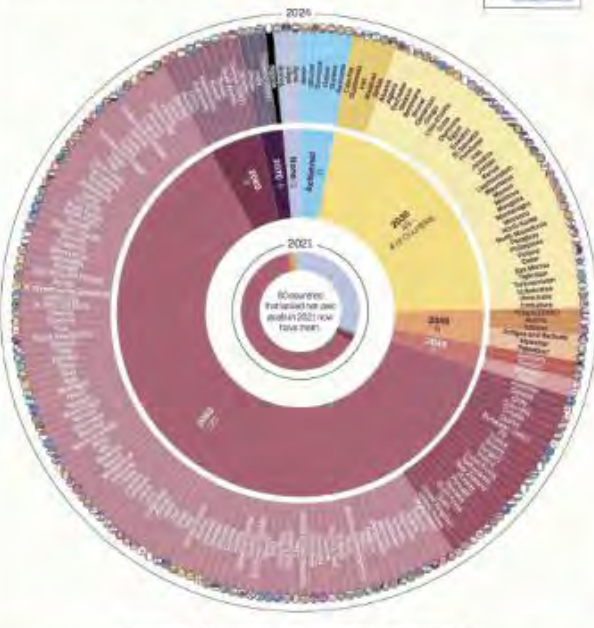

To overcome this backlog, streamlined permitting and expanded high-voltage transmission are essential, especially as more renewables queue up.

# RACE TO NET ZERO

## Emission Reduction Goals by Country in 2024

Source: Decarbonization Central

Below we break down current emission reduction goals by target year and level of commitment, and compare them with 2021 goals.

# THE PRIDE OF CARBON AROUND THE WORLD

Only 1% of global nations are proud high enough to meet the Paris Agreement's temperature target in 2024.

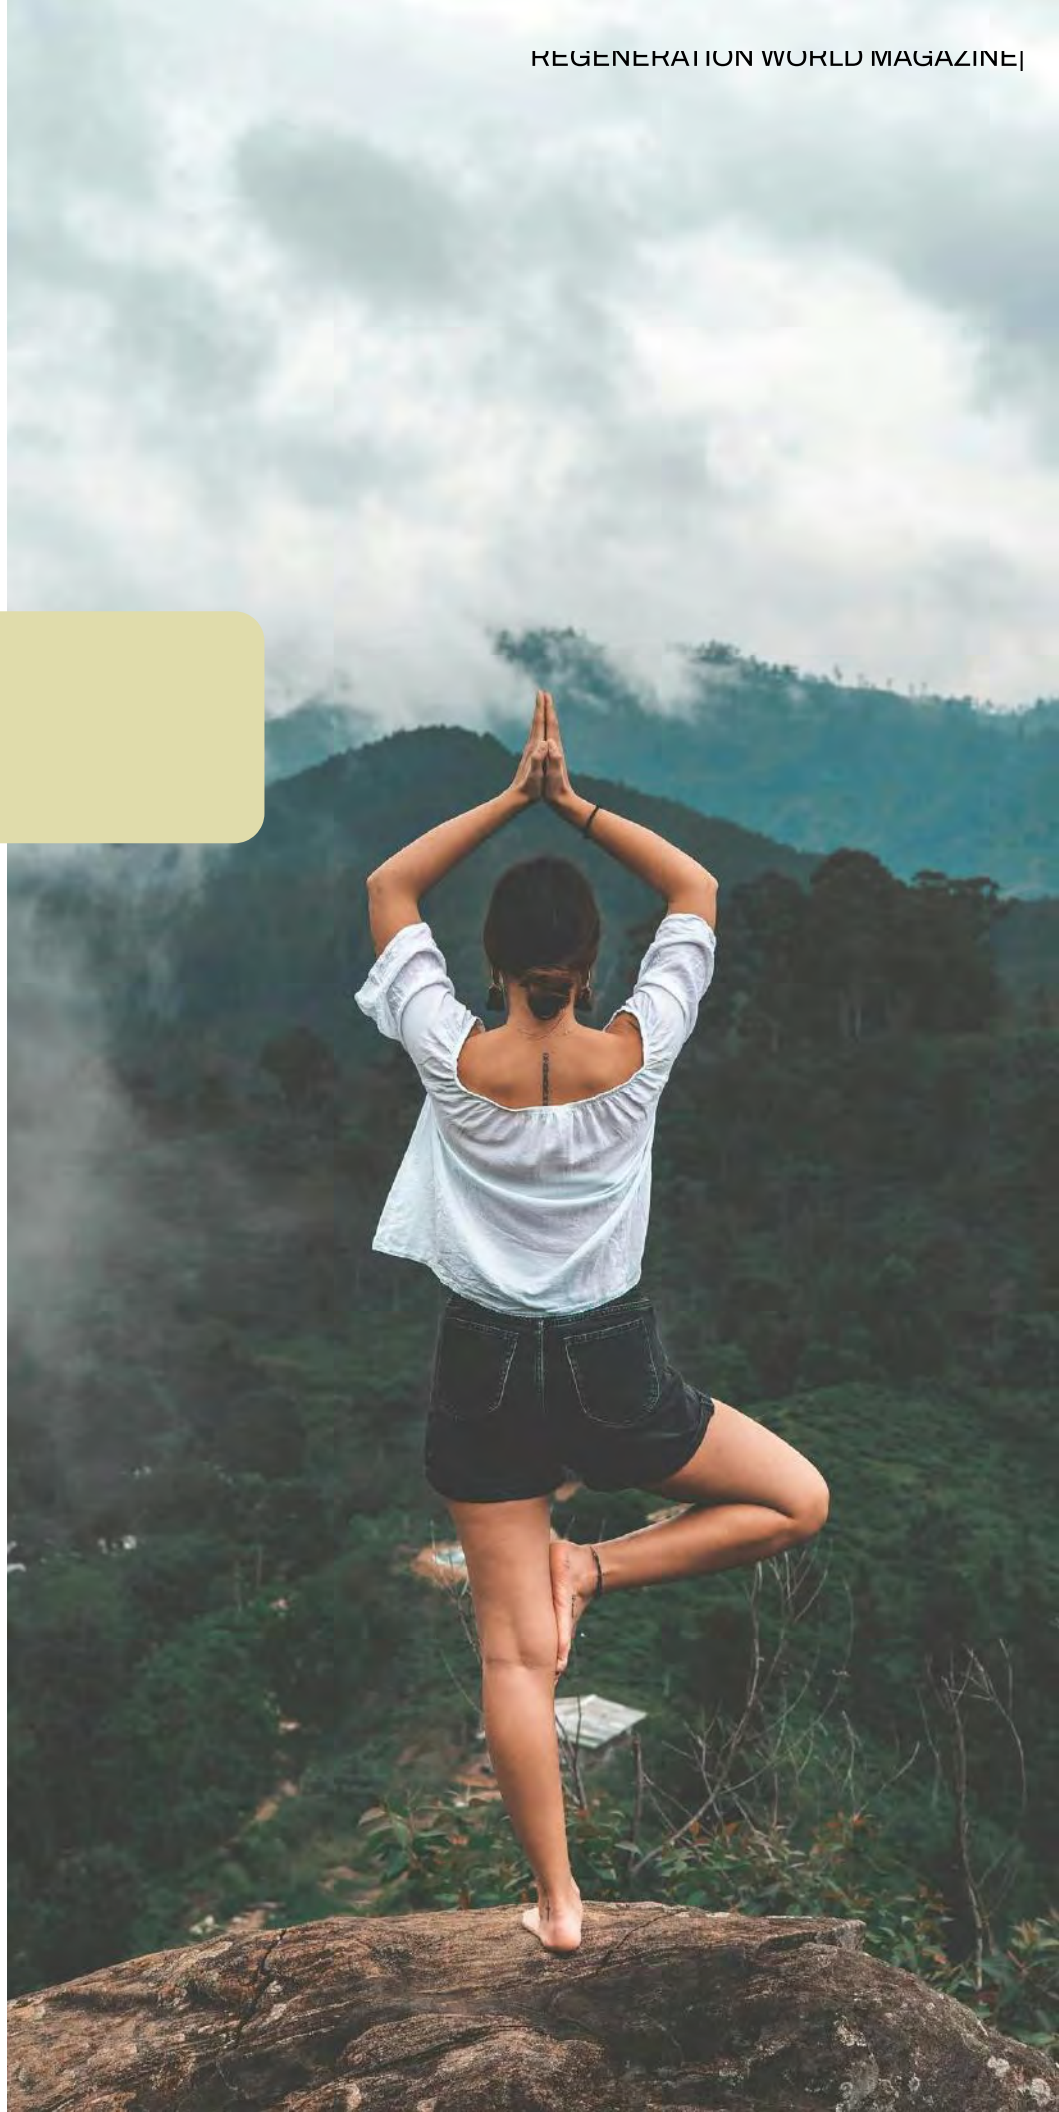

Here's how pricing works in different parts of the world.

## 2024 PRICE PER METRIC TON OF CO<sub>2</sub> EQUIVALENT

Country/Region	Price	Notes
Exceeds target	\$102 - \$140	UK (UK Emissions Trading Scheme), EU (EU Emissions Trading Scheme), Canada (Canada's carbon price), etc.
Meets target	\$22 - \$100	China (China's carbon price), etc.
Below target	\$0 - \$20	USA (No federal carbon price), etc.

According to the World Bank, weaker policies to increase climate policy, and higher prices and broader implementation are crucial, especially in high-emission countries like the United States.

# HEALTH & WELLNESS

## **Death of the Kinesthete:**

Health and Safety in the Pounding Tyranny of Zeroes and Ones

**i do not consent to a touchless world.**

**My sentience emerges through my body from Life itself,  
as is Nature's way.**

**i am a kinesthete, trusting in sensory awareness  
and neuro-intuitive grace.**

Senses are how we navigate safety and intuition in this world. Senses are how we get *and stay* on track. Our senses read the environment and feed information back to the brain. Through our senses, we hear language, music, frequency and tone. From our senses comes the impetus to act. Our senses always tell the truth.

**Kinesthetic attunement is our god-given grounding force.**

Our sentience labors greatly under the oppression of the times. The fluid poetry of soul rails loudly against a system that chokes its light.

**Wrapped in webs of zeroes and ones, the human spirit cannot breathe.**

As the candle smothers without oxygen, so do we.

Little do we ever ponder the true implications of losing of our senses to technology in the modern world. In the midst of rising technocracy, most of us have cut off our bodies and our breath. More and more people are losing their strong bodies and their sense of smell. We no longer sing in groups. We don't touch each other, or do art. We don't walk in the woods breathing in the aromatherapy of the trees; we don't sew or carve wood. Instead we plug in a sound app and climb onto a stationary exercise machine; or worse yet, keep typing and scrolling away, Ping, Ping, Ping.

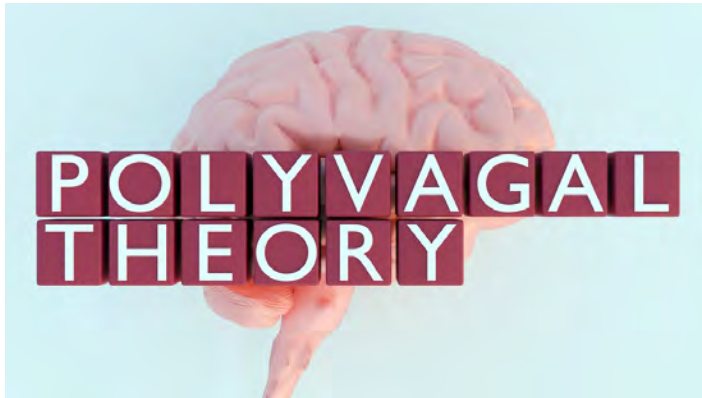

## **Death of the Kinesthete:**

Health and Safety in the Pounding Tyranny of Zeroes and Ones

**A digitized humanity severs itself from basic survival skills that are moderated through the brain and nervous system.**

This forced separation from essential parts of ourselves takes high tolls on our health, brain function, and relationships.

**We are meant to co-regulate. Together, our nervous systems recalibrate each other, restoring a sense of safety to the clan.**

Our indigenous ancestors lived in tribes and villages of extended families because they intrinsically knew this to be right and true. Steven Porges developed “Polyvagal Theory” to explain how bonding affects our brains.

While isolation creates chronic anxiety, social withdrawal, and fear, human contact and trusted community reinforce safety,

bonding, and physical, mental, and spiritual health.

**The biggest unseen dangers we face in modern times are environmental toxins, pharmaceuticals, and a touchless world. It all turns our vital functions off.**

Loss of the senses depresses immunity and escalates a sense of isolation, fear, and PTSD. Without the senses, we lack orientation and feedback, and that causes panic in the brain.

Lulled into digital comas by the siren song of zeroes and ones, too many of us have lost touch. We are so in our heads that we can’t feel our bodies - unless they hurt - so we are clueless to the trauma, overwhelm, and chemical stew buried deep inside.

**Trauma patterns are held in our body tissues, and it is through the body tissues they are released.**

Caring for and using our bodies is essential in today’s world, as are receiving manual and somatic therapies. Turning on the senses keeps life force flowing, and heals the invisible wounds inflicted by old traumas and a touchless world.

## Death of the Kinesthete:

Health and Safety in the Pounding Tyranny of Zeroes and Ones

**Caring for our bodies and receiving bodywork reconnects us to what is possible and real.**

**Our own self care, with attention to detoxification, circulation, and breath,** goes a long way toward managing ourselves in this toxic, touchless world. It can seem overwhelming; **bodywork really helps. Bodywork moves circulation - life flow. Bodywork gently excavates old traumas that keep negative patterns in place, slowly diffusing the source. Bodywork is a pathway for detoxification. Bodywork comforts the soul.**

We are born fully equipped with natural super powers, but the modern *techno-era* has turned our lives into flat screen digital projections on the brain.

*Tele-living can never substitute for the real thing. Nor can tele-health.*

Our **senses** are antennae, constantly receiving and transmitting with the *outer*

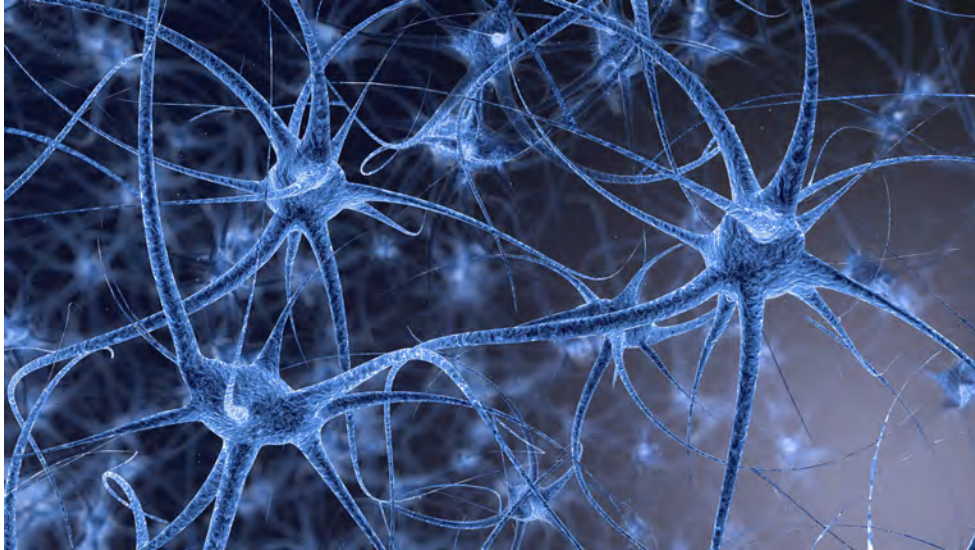

*world.* Sensory awareness is the basis of perception, and of feeling, connection, pleasure, and safety in the world. Without sight, hearing, smell, taste, and touch, our ancestors would have perished in the wild, *and along with them, the lives we are living now.*

## **Death of the Kinesthete:**

Health and Safety in the Pounding Tyranny of Zeroes and Ones

**Yolanda Pritam Hari**, author of *Quantum Reality, Consciousness, and Medicine Today: The New Science of Self-Healing*, has 40 years in holistic health, with a clinical specialty in pain, degeneration, and manual therapies for the brain. She opened Quiet Mind Healing™ in 1988. Yolanda is a bodyworker, herbalist, sound healer, and published author who masterfully bridges neuroscience, manual therapy, bioenergetics, and spiritual connection with restorative self-care. She sees clients, gives talks, and hosts healing events in the Sierra Foothills and Bay Area, CA. **Imagine the brain's complex and delicate circuitry... trillions of wildly branching microscopic capillaries and nerve endings cross-pollinating in perfect synchrony, a fiberoptics network brilliantly ablaze...**

What follows is a wondrous tale of human potential: our brain and its ability to neuroplasticize, regenerate, and self-heal. Here, we invoke the eternal natural miracle of life regenerating itself...

**The adult brain is a 10-15 pound bowl of slushy custard contained like coconut water in its shell - which for us is the skull.**

Brain cells speak the language of light. When they are producing light, they are most alive. Yet they're also fragile, vulnerable, and microscopically small. Within the skull, the brain floats in and is bathed by a pure plasma-like ocean called cerebrospinal fluid.

**Surrounding our brain tissue are thin membranes known as meninges, whose micro-layers are filled, fed, and flushed with cerebrospinal fluids.**

*Here's a fantastic overview of the craniosacral system:*

*<https://integrativeworks.com/simplified-explanation-of-the-craniosacral-system/>*

**Within the central *meningeal* layer - the arachnoid - sit all the micro-capillaries of the brain - each with its own personal blood-brain barrier.**

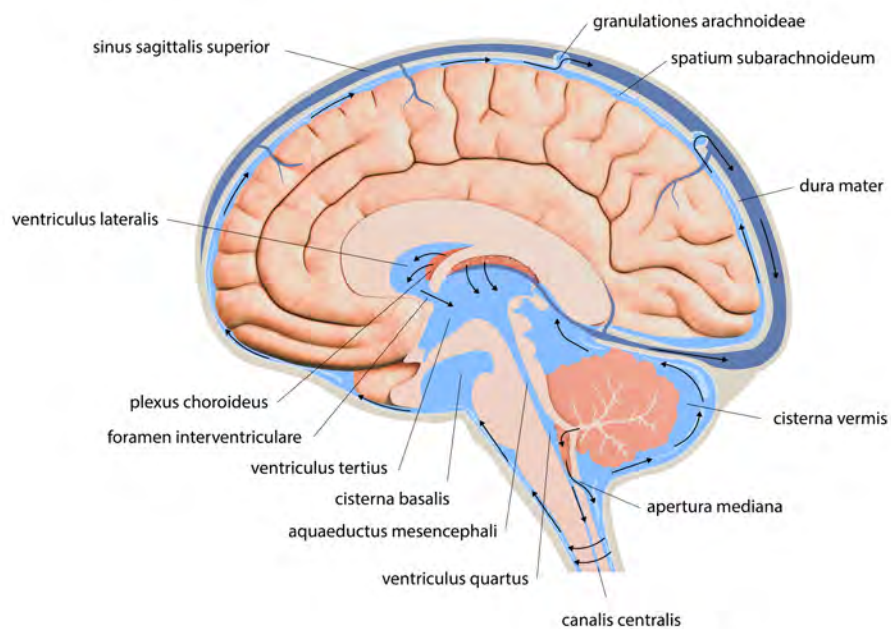

## **THE BLOOD-BRAIN BARRIER**

***BACK TO THE MENINGES TO EXPLAIN...***

## WHEN BRAINS BREAK: Healing and the Blood-Brain Barrier

Encasing, surrounding, and cleansing our magnificent brains are thin, **fluid-filled craniosacral membranes (meninges)** and **the blood-brain barrier**. The **blood-brain barrier** is a protective cell layer that only lets the good stuff pass in or out. This cell layer attaches to the three cranial membranes - which in the image is *wherever you see the blue outlines around the brain*.

The cranial membranes, ventricles, and sinuses make up a “3-D fitted water balloon” system (also in blue) that, when healthy, continually cleanses and protects our limbic system (emotional center) and the membrane linings the inside our skull.

This living system monitors and cares for the brain. It's an intercommunications superhighway *and* the ultimate *computer*, supreme in potential and unrivaled design.

### ***So what can go wrong?***

Environmental toxins, for one. Then there's unhealed trauma, also toxic.

**Environmental toxins cause brain synapses to sizzle away.**

The contentious times we live in severely challenge our innate evolutionary potential, but we can't let this new status quo win.

*The new status quo? Hmmm...Yes...*

**Environmental toxins and the 5-10G grid degrade epithelial tissue - sinuses, membranes and blood vessel linings, ultimately poisoning our cells.**

### **Meninges are membranes.**

Membranes are epithelial tissue - the protective linings and coverings on *all* our organs, vessels, and cells. **5G energies irradiate the blood-brain barrier** and other delicate

*Yolanda Pritam Hari / Regenerative Therapies / [www/quietmind.com](http://www/quietmind.com)  
<https://substack.com/yolandapritamhari>*

## WHEN BRAINS BREAK: Healing and the Blood-Brain Barrier

epithelial tissue (cell membranes) as well. **Poisons** injected into our air, water, and food **damage the blood-brain barrier and flood brain and body cells.**

**Once blood-brain barrier breaks, inflammation and degeneration take hold.**

As toxic loads accumulate and our body's outflow channels are blocked, the flow of blood, lymph and cerebrospinal fluid stagnates, disrupting and damaging central nervous system circulation and overall health right away.

**A brain that is dying produces little to no electricity and no light.** Symptoms range from low energy, dullness, and cognitive impairment to zombie states, immune failure, and neurodegenerative disease.

*We have to minimize the assaults and maximize self-care to regenerate the brain.*

**We are not doomed to degeneration, as we've been conditioned to believe** - as long as we remain aware, and take steps to respect and care for our brains and their inborn capacity not only to heal, but to super-evolve.

**Manual therapies, in particular CranioSacral and Lymph, increase brain perfusion (circulation to cleanse and nourish the entire brain); and help release traumatic memories stored in brain and body tissue, accelerating healing flows.**

## BEYOND THE BASICS: Epigenetics, the Scourge of Trauma, and the Self-Cleaning Brain

**Extraordinary potential resides latent within each of us, waiting to be called forth.**

**Potential = DNA ready to be activated and bring evolutionary genius alive.**

The brain is a living breathing wonder, a holy temple, a vector of cosmic communication, a tree of genius, a fertile wisdom cave.

...and our cells, according to Bruce Lipton, are "liquid crystal semi-conductors with gates and channels" just like our computers. This realization fueled Dr Lipton's life research into **epigenetics** - the science of consciously creating health, rather than submitting to *degeneration through defunct biology that renders us victims to*

*Yolanda Pritam Hari / Regenerative Therapies / [www/quietmind.com](http://www/quietmind.com)  
<https://substack.com/yolandapritamhari>*

*traumatized genes.*

**Trauma** is a whole body-whole being event, that in most cases lives on in our cells and creates lifelong residual effects. It can show up as unexplainable paranoia or constant low-grade fear; or it can grow into cancer, neurodegeneration, or autoimmune disease. ***The liquid crystals in our bodies are intended to exchange fluid and produce light.***

## **AWAKENING NEUROPLASTICITY AND MAKING LIGHT**

We awaken neuroplasticity - the birth of new brain cells - through learning, meditating, and establishing heart-brain coherence and joy. When we activate cognition, compassion, connection, or reverence, brain scans display brilliant fireworks of synaptic excitement that project electromagnetic energy out beyond the boundaries of the skull - *or what any existing machines can measure now.*

**This explosion of fireworks in the brain actually aligns the nervous system and illuminates our surrounding field.**

### **WE MAKE LIGHT.**

It's our natural neurological superpower - its in the genes!

*So what stops us?*

***Culture pushes us to dismiss what we feel and hurry on,*** so we downplay the effects of brain traumas and bioenergetic assaults on our brains, while bathing in a neurotoxic chemical stew and being fried in high radiation fields every day. *We somehow ignore it and keep going. But ignoring damage does not lead to health.*

i've pondered this notion in great detail: few mortal humans can consciously resist or block poisons from entering their brains; yet the monks at Chernobyl were deemed immune to the radiation from the blast. *That's cause for pause...*

**As long as one man or woman did it, it absolutely can be done.**

*It has already been proven - by mystics throughout time - and then with ongoing global neuroscience research initiated by the Dalai Lama circa 1991 and continuing to this day.*

Perhaps most of us have yet to reach that point of absolute coherence.

But *what if we could? Adaptation and evolution are encoded in our DNA.*

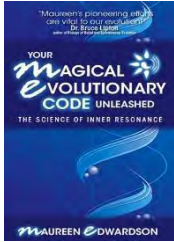

**Extraordinary potential resides latent within each of us waiting to be called forth.**

**Healing and regeneration are just the start.**

Yolanda Pritam Hari has 40 years in holistic health, with a clinical specialty in pain, degeneration, and manual therapies for the brain. She opened Quiet Mind Healing™ in 1988. Yolanda is a bodyworker, herbalist, sound healer, and published author who masterfully bridges neuroscience, manual therapy, bioenergetics, and spiritual connection with restorative self-care. She sees clients, gives talks, and hosts healing events in the Sierra Foothills and Bay Area, CA.

WHEN BRAINS BREAK: Healing and the Blood-Brain Barrier

## What is Inner Resonance Technologies?

### Why is IRT so Amazing?

IRT allows us to create immediate, permanent change in 1-5 sessions in ALL areas of our lives

- *There is no need to relive or re-experience, share or understand anything to put this Inner Technology to work*
- IRT works as a catalyst to boost every system, process and technique into the instant results of quantum timelessness
- *IRT gives us the opportunity to program a one-touch “speed dial” or “Touch Breath” for ongoing daily maintenance and instant re-activation of “The Chemistry of Wholeness” for whatever is triggered or needed in each moment.*

We truly are walking miracles, born “fully loaded” with all the programs our “bio-computers” need to instantly heal our bodies, clear our minds and reconnect our spirits, allowing us to feel whole once again.

IRT has been called “the ‘Windows’ of the bio- computer system” as what Maureen has created is a unique breakthrough: an extremely user friendly interface between the operator (conscious 5%) and the operating system (unconscious 95%) resulting in everyday miracles: the automatic outcome of clearing old limiting patterns and beliefs.

Remember that old saying, “Whatever you can dream you can achieve”?

Inner Resonance Technologies allows us to remember who we are as holographic particles in the greater body of creation in order to consciously create the kind of world, both personal and collective, that we have up to this point in our history only dreamed is possible!

***“Any sufficiently advanced technology is indistinguishable from magic.” Arthur C. Clarke***

Maureen Edwardson is presenting IRT at Earthstock Summit in Colorado August 19- 25<sup>th</sup>.

Here is her schedule of events free to attend:

<https://bit.ly/IRTEarthstockEvents>

Maureen is also online with Shannon McArthur for Sparkling

Conversations Friday Aug 23<sup>rd</sup> 9-11am.

For more about Maureen and IRT:

# The ultimate wellness gift.

A blanket infused with  
96 crystals to help Relax,  
Recover, & Restore.

[www.crystalblanket.com](http://www.crystalblanket.com)

# Crystal Blanket

The healing  
power of  
crystals in a soft  
blanket.

Experience a wellness tool like no other, crafted with a blend of 96 minerals and crystals, woven in certified organic cotton. Our proprietary fiber enhances your bio energetic field to assist with relaxation, recovery and restoration.

## **SUPPORT YOUR HEALTH**

IMPROVE SLEEP

RAISE VITAL LIFE FORCE

BALANCE METABOLISM

HARMONIZE ENERGY POINTS

SHIELD FROM EMF'S

ELEVATE MEDITATION

CENTER MIND-BODY-SPIRIT

## RAISE YOUR VIBRATIONS

VSCAN HRV Analysis shows notable shifts in energy when subjects sat with Crystal Phi Technology for 30 minutes.

- Soft & lightweight ideal for travel
- Crystal infused fiber
- Organic cotton
- Machine Washable
- Sustainably Made
- Sizes: 66x47 and 37x41 inches
- Colors: white, blue, lilac, and black

# A Promise of Love & Care

We are small business in Colorado on a giant mission to offer the best wellness tools for modern day life. We value craftsmanship and sustainability, ensuring a process that is energetically aligned with love & care - from sourcing, production to packaging. We are a proud sponsor of Wellness for Humanity Foundation - donating a percentage of each sale to **help turn trauma into joy.**

“I love this blanket to meditate with... I couldn't recommend it enough for someone that is looking for peace and grounded-ness within their physiology and their being.”

- Dr. Benjamin Alter of Alter Your Health

# DIVINA

## Introducing **SOOTHE**

Our Premium Hemp CBD  
Massage & Muscle Recovery Serum  
Encoded with Our Proprietary  
Music Bio-Resonance Frequency  
Powered by:

DIVINA

THANK YOU - GRACIAS

CARMEN MLAGRO  
carmen@divina.store  
415.215.2433

### SOOTHE BioRF Hemp CBD Muscle Recovery & Massage Serum

Homeopathic, organic, non-toxic, plant-based & food-grade formulations encoded with our Patent-Pending Music-Based Bio Resonance Frequency (BioRF)

Premium organic pain relief medicinal-grade (70-86%+), 3rd party-tested, full-spectrum, non-GMO Hemp CBD oil

Damascus Rose anti-inflammatory essential oil plus other natural and kosher ingredients

Bottled in Bio-Photonic Violet Glass Technology (VGT) which help to preserve organic ingredients naturally

Currently Available in 50ml & 30ml Sizes

At DIVINA we believe in the powerful combination of music, technology and ancient plant medicine to soothe the soul, mind and body as we continue to incorporate our transformative BioRF soothing principles. We are not merely an advocate for a healthy beautiful life and we are first-to-market with our SOOTHE BioRF Serum and Soaking Salts.

We're extremely proud to share with you our latest breakthrough not only in massage and relaxation but also muscle recovery and relief! Our premium products are also free from harmful synthetics and known cancer-causing agents. They are quite literally, harm-free!

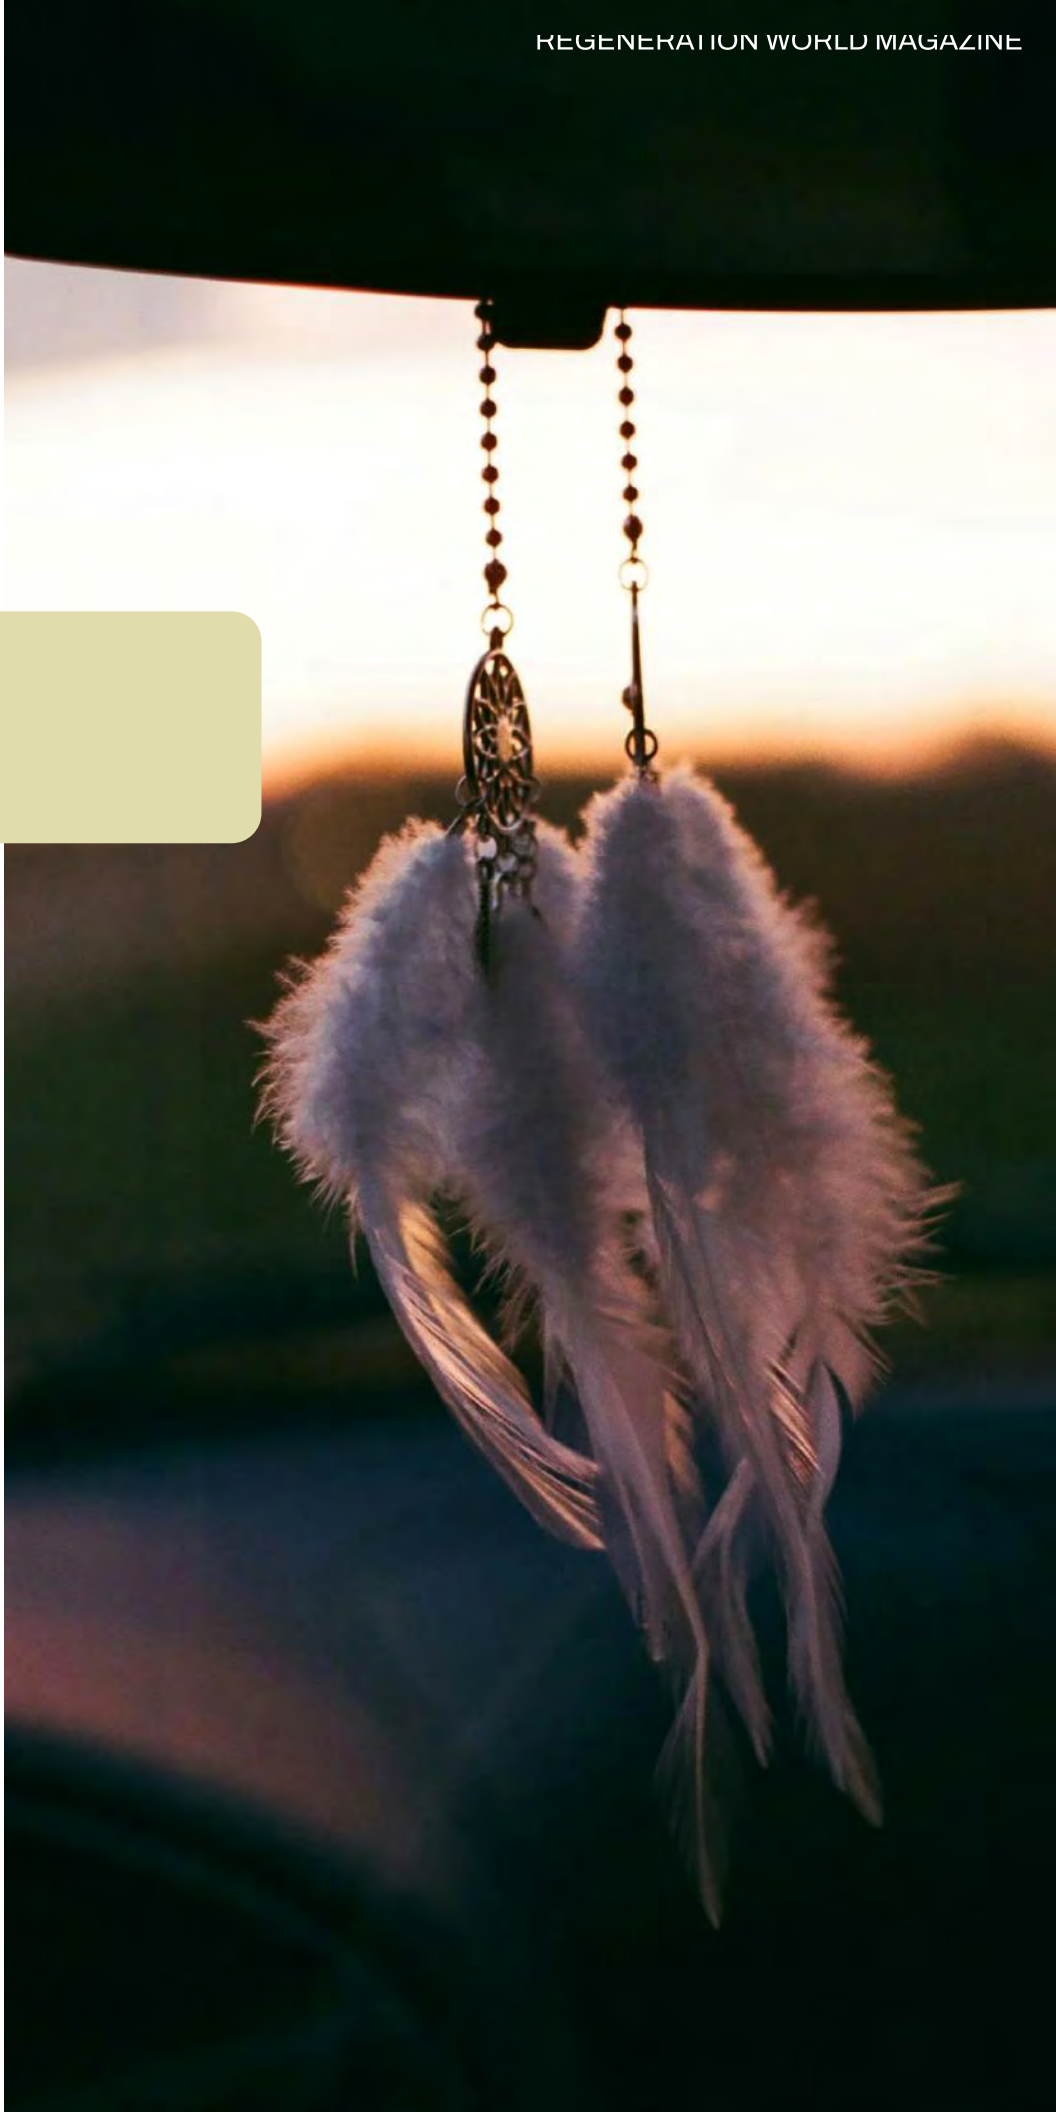

DIVINA - A WELLNESS COMPANY

**INDIGENOUS  
WISDOM**

**Mystic Monastery  
of St. John the Baptist of  
Monastic and Indigenous Healing**

## **Mystic Monastery of St. John the Baptist of Monastic and Indigenous Healing**

Welcome to the Mystic Monastery of St. John the Baptist of Monastic and Indigenous Healing (MM). Our monastery, nestled in the lush, tropical landscapes of Puerto Rico, is a unique sacred site that pulsates with ancient spiritual energy dating back to 800 AD. This unique spiritual energy, a result of our rich history and the Tanama River, once revered as the most sacred river in the Caribbean, flowing 19.2 KM through our land, is a source of inspiration and connection with nature for our visitors.

### **A Sanctuary of Inner Exploration and Tranquility**

The Mystic Monastery is more than a place—it's a journey inward. Situated near the renowned Arecibo Observatory, the world's largest radio telescope, our monastery parallels its quest for cosmic understanding with our focus on the inner cosmos. Here, we explore the vast, uncharted territories within ourselves.

## **The Pillars of Our Name**

### **I. Mystic**

"mystic" signifies an openness free from dogmatic theologies and ideologies. At Mystic Monastery, we embrace all spiritual frameworks, encouraging each individual to follow their intuitive path guided by two principles:

**1. Know thyself.**

2. Maintain energetic balance through the **Golden Rule**: Treat others as you wish to be treated.

### **II. Monastery**

Our monastery is a cloistered community of spiritually minded individuals worldwide, committed to the in-depth study and practical application of inner life, healing, and assisting others in their search for purpose.

### **III. St. John the Baptist**

St. John the Baptist, a revered mystic, mentored Jesus and laid the groundwork for our unique blend of Monastic Healing (gentle hand-touch healing) and Indigenous/Traditional Healing (using medicinal herbs from nature). Inspired by St. John's wilderness healing, this combination empowers others with the knowledge to heal themselves.

### **The Law of One**

Our practice is rooted in the Law of One, which teaches that we are all interconnected parts of a greater whole. This philosophy urges us to transcend dualities such as good/bad and heaven/hell, recognizing the unity in all existence.

## The Monks

Those who study at the monastery are known as monks (a gender-neutral term). Tucked between the hills along Puerto Rico's most sacred river, these individuals embark on a journey to enhance their healing abilities, expand their awareness, and integrate thousands of spiritual ideologies.

Our teachings draw from global spiritual and healing traditions, including innovative methods such as mapping emotions' effects on human glands, organs, and physiological systems. Our monastery also serves as a "lab," or Sanitarium, a place where individuals can recover from health and emotional challenges and refine their healing practices.

## **The Mystic Experience**

The goal of the monastery is to empower individuals to embrace all religious, spiritual, and esoteric frameworks as lenses on the Divine. Love is our way and demands no control, categorization, or exclusion. By immersing ourselves in nature, we constantly remind each other of our interdependence. Each person must take ownership of connecting the dots in their life, embodying the lessons of what they want to be more like and what they want to be less like. Here's what you can expect from the Mystic Experience:

- Improved self-clarity
- Greater command and excitement for your future
- Renewed passion and energy for your goals and mission
- Deeper connection with your higher purpose
- Restored sense of hope

## **A Journey of Lifelong Learning**

Graduation from our program signifies a profound understanding and embodiment of the Law of One. Ascended Masters, such as St. Germain, serve as inspirations, having chosen to remain on Earth to aid humanity's spiritual ascension. Our community aims to be a beacon of light, education, and empowerment, contributing to a global awakening.

## **Four Branches of Monastery Outreach**

1. Online Social Network: OneTribe.Cafe will serve as a platform for lightworkers worldwide to share, learn, and grow.
2. Suicide Hotline: Offering spiritually sensitive counseling and support for practitioners and the general public.
3. Performances: Hosting global musical groups at our majestic cave venues to reconnect with nature through music.
4. Virtual Reality Game: Developing a VR game focused on raising consciousness, filmed on our grounds.

## The Significance of Our Work

Suicide is a global epidemic, and our monks will be equipped with ancient healing techniques to help reduce suicide rates by helping others find their purpose. Our practice returns to nature for life, healing, and connection, encouraging sustainable living and personal empowerment.

## Call to Action

Reflecting on our interconnectedness, we invite you to participate in our mission. Your involvement is valuable through contributions, volunteering, or becoming a Healer Monk. We need tools, equipment, and resources to continue our work and repair the damages from Hurricane Maria. You can visit our website at <https://mysticmonasterysjb.com/>

**Thank you for your presence, energy, and participation. Together, we can create a ripple of consciousness to transform the world. Blessings to all!**

# SPIRITUALITY

Ancestral wounds and collective grief is where the destruction of the past will be healed. Leaning into the truth is the first step. Take this Burden into deep privilege and honor... we are Born into profound n powerful potential that is also difficult and traumatic.

This is experienced as Flash back nightmares of genocide, battles, attacks... then ceremony w ancestors in dreamworld honors all. Truth can also be experienced as cycles of fears and feelings, obsessive thoughts that don't belong to us. Black n white levels of extremes... sometimes seemingly out of the blue.

Family patterns show epigenetics that are passed on unconsciously. This is also where we can find our ancestral culture. It shows up in relationships, friendships, environment, and the way we carry ourselves. It is actually the body that shows the way. This is about being more fully in our gifts and why we are here. Integrating into purpose and meaning can allow anxiety and grief to show the way. The underlying essence of most problems is ancestral. Half of what shows up in therapy is personal and the other half is lineages. Extended humanity goes beyond incarnation and suffering can still shift, especially with our conscious and careful participation.

Ancestral Influence is impactful, whether it's conscious or unconscious. We can learn to listen to ancestors who have done their work. Reach back beyond the names we know. Even to the beginning of this wave of humans where we all share ancestors. They know us!

Connection within relationship is in all cultures. When we build relationships with all life around us it feels very nurturing and supportive. Begin with simply being in a quiet place, ideally in nature. Begin to listen to everything around you. Take your ears out as far as you can reach. Then listen with the interdimensional senses, spirit to spirit with all life. Learn to trust intuition thru direct experiences and awareness.

Discernment practices are crucial and we can ask the ancestors who have done their work to help all of us who are still healing. Get ego out of the way and connect with your people who are well. Blood lineage is less idealized and roots out supremacy and objectification. Practitioners can hold space but hierarchy dilutes the ceremonial results of generosity.

Letting elder ancestors drive the process is honoring. Just ask them to help us heal the harms created by colonialism and genocide. You will feel their love and warmth. Ancestors may show up in your dreams with true ceremony to honor each shift when you do this work. Share the wisdom you earn thru images, symbols, relationships, self-love and kindness. This is the language of the soul.

~Gail Thomas

## One Consciousness

By *MonaLisa Coburn*

A little over a year ago while meditating on Bell Rock in Sedona Arizona, my Spirit Guides asked me to teach about One Consciousness. They wanted me to help people understand that we are all part of the same Source, and to teach the concept of “AND” rather than “OR.”

My guides know me as the author I am. I love channeling and writing full length novels, I've written more than twenty. But this time they asked me to keep it short so the average person might pick it up and spark their interest. They promised me there would be plenty of opportunity to write volumes on the many different aspects and concepts of One Consciousness.

With that assignment in mind, as I traveled home, I wondered how I would go about teaching such a deep concept in a short book. When I got home, I prayed to understand how to teach the truths I've learned through channeled writing without breaking the “glass walls” of my friends and family. I felt that many of them were too “fragile” spiritually to understand and would write me off as a kook and never talk to me again.

The answer came from Yeshua himself, *“Always answer them with the truth. Tell them it's the truth that has been revealed to you and the truth as you see it. Tell them too that we share*

*a unique bond in that you can channel what is known as the Yeshua Consciousness through your writing. It is part of your gifts. Secondly, we all know what happens to glass when you drop it. Sometimes walls need to crumble.”*

I was told in that “download” that “they” would be back for twelve more nights with more messages.

After that, each morning I would write down the message that Spirit sent me from ascended masters, spirit guides, passed loved ones, and more. Well, twelve became twenty-one and I realized the book had written itself.

The book was released one year ago this month (August) and in September my husband and I returned to Bell Rock on our 41<sup>st</sup> anniversary to give gratitude for the inspiration. The next morning, we had an email from my marketing manager congratulating me that *Downloads from One Consciousness* had hit #1 Best Seller in multiple Amazon categories!

Since that time, I have begun channeling Spirit verbally. Often, they are my spirit guides who asked me to

teach One Consciousness. I'm honored to share a bit of the knowledge Spirit has imparted on me.

You might ask, "What is One Consciousness?"

From my view that Spirit has shown me, One Consciousness is remembering and living like we all are interconnected... because we are.

We may not be able to see these connections with our eyes, but some mediums can see one aura of the soul connect to another one.

This isn't so outrageous if you stop to think about the realization that we all are made up of energy. And at the energy level, which takes into account our vibrational frequency, we can connect to each other.

Each person who comes into our awareness does so because we have either subconsciously or consciously invited them in. We are reflections of each other. As One Consciousness, any positive wave affects the whole. Our thoughts, words and deeds either vibrate out love or they don't.

We each have come, at this time and date, to experience the awakening of the soul. We've also come to learn to know thy self, for our own spiritual growth. I get to remind people all the time that death is not death, but a rebirth or a waking up from a dream of the soul.

I'm passionate about assisting people to discover their soul purpose through hypnotherapy. It's a life changing event that often does require some time to process. To learn your highest path directly from your Elder Council is priceless.

I also enjoy life coaching and teaching others how to heal themselves. I tell people that by

teaching them, it's like I'm teaching myself out of a job, but it's so rewarding to see how I can help those who need help getting on their path!

I truly hope you have enjoyed hearing about how *Downloads from One Consciousness* came about, there's much more to come. You can find the book on Amazon and Kindle Please check out my web site and social media sites for more information or to schedule a Zoom session with me.

With Love and Gratitude,  
MonaLisa Coburn

"You" Your body consists of the thin central part within your glowing aura with tentacles of your soul connecting your past, future and oversoul.

# Divine Vibrations: My Journey into Sacred Sound

by Dana Tomasino

I have always been a Bridger of Worlds – someone who connects disciplines in her work, integrating science and spirituality, merging academic knowledge with intuitive understanding, drawing on diverse fields to create holistic, systems-based approaches to understanding and navigating our reality. My most recent creative venture unites several aspects of my life’s work and passions: my longtime work with Heart Coherence, my Divinely supported healing work, and my lifelong passion for music, harmony, and singing. These three elements come together in synergistic and harmonious union in my recent forays into the domain of Sacred Sound.

## From Music to Sacred Sound

Music has been part of my life since my childhood. I have a background in classical piano and voice, and I have studied music theory through university level. Throughout my life I have always sung – in choruses and choirs, early musical ensembles, classical acapella groups, madrigal groups, operetta, and musical theater. In 2021, however, I began to use my voice in a new way. I’d had the opportunity to enroll in a year-long, comprehensive Sound Healing certification program with the Globe Institute. With the inspiration I was receiving through this training, along with the creative energies present on the island of Maui, where I was living at the time, I began to open my voice (and my musical expression) as a conduit for Divine energies, for healing and consciousness expansion. While on Maui I composed and performed my first musical piece that was intended specifically for this purpose. It was for piano and voice and called “Meditation.” After receiving some powerful and encouraging feedback on this, I began to occasionally offer improvised vocal transmissions at various local events, and I was even invited to contribute to an online global event for World Sound Healing Day. Gradually, I also started to incorporate my voice into my healing work.

## Sound as a Divine Conduit

At that time, I’d already had about 11 years of experience as a healing practitioner, and thus I was familiar with the idea and sensation of serving as a conduit for Divine energies to flow through me. I had developed my own energetic healing and attunement modality that I called Source Light Radiance, since it was based on bringing in energy from Source for the recipient’s “Highest

Wholeness Healing and continued evolution.” I blended this with my training in Hawaiian Lomi Lomi bodywork to create unique healing sessions that were guided and supported by many “Helpers of Light” – higher-dimensional Beings, Collectives, and even Forces of Nature, whose assistance I would call upon at the beginning of each session. One thing that I had learned from my Lomi Lomi training in Hawaii

was that *“there is always Help available.”* I absolutely believe and fully trust in this – and I experience it consistently in my healing work. This unquestionable Trust in my own connection to the Divine is, I believe, what allows me to serve as a very pure channel for these Energies. We all possess this Divine Connection – it is always with us, and we need only to draw upon it.

As I began to use my voice as a conduit for higher-dimensional frequencies, it was similar to my experience doing my healing work. There was no elaborate process needed to connect to Divine energy; it simply flowed through my Sound, just as it flowed through my hands, heart, and entire Beingness – simply through opening to this possibility and reality.

### **Remembrances of Lemuria**

As I continued to develop and evolve my work in Sacred Sound, it became clear to me intuitively that this was not the first time I had “played” in this domain. Indeed, I felt that I was reactivating an ancient Soul gift – one that I had expressed eons ago during my time in Lemuria. Lemuria was a highly advanced civilization

of Light, long predating written history; it may well have been the most advanced civilization that has existed on Earth as we know it. In Lemuria, our entire existence was devoted to merging our Consciousness ever more intimately with Divine Source and our own Divine Essence. My Soul’s wisdom tells me that in Lemuria I served as a Priestess, weaving Sound and Light into “frequency tapestries,” interacting closely with Water as well. I feel that my current expressions of sonic alchemy carry a frequency signature of the Consciousness that existed in Lemuria, helping to reactivate those energies in us all. These higher-dimensional energies can help transmute density on many levels and bring expansion and upliftment for individuals, groups, and in the Planetary field as a whole.

### **Sacred Sound Infusions**

The next phase that catalyzed further development of my work in Sacred Sound was my involvement and participation in the [Unity Earth](#) community over the last several years. This [global community](#) gave me a very supportive space to develop this creative work and many opportunities to offer it publicly. One pivotal moment in my journey was in the summer of 2023, when all members of the community were encouraged to declare a “Mission” that they would work toward over a defined

period of time. Accepting this challenge, I titled my mission [“Anchoring Divine Light and the Energies of Lemuria through Sound.”](#) Beginning with volunteering to offer a Sound Blessing during World Unity Week of that year, I subsequently took every opportunity that was offered to me to share my Sacred Sound work publicly (typically in online settings). It was in this way that I gave this work the potential to evolve.

And evolve it did! At the beginning I gave simple, improvised Sound Blessings, usually sung over background music. Then, perhaps owing to the depth of my musical background, I sought to add greater complexity and “dimensionality” to my sonic offerings. I began playing with creating multilayered pieces, combining instrumental and multiple vocal tracks. I experienced much Facilitation and synchronicity in this creative process, often being amazed at the way the sonic components “fell into place” together to create unusual harmonies, “reflections within reflections,” and synergistic effects.

The term I use to describe all of my sonic offerings is “Sacred Sound Infusion.” I chose the word “Infusion” very intentionally. While a “transmission” is something that “goes out,” this word doesn’t say a lot about how the information and energy is received. “Infusion,” on the other hand, paints the picture of a gentle infiltration of the frequency-encoded information, implying a receptivity that allows it to softly permeate and “infuse” the entire Beingness of an individual or environment, down to the cellular level. It is in this way that I intend and envision my sonic offerings to be received and integrated.

### **Adding a Visual Layer**

The next stage was to add a multimedia component to my Sacred Sound Infusions, transforming some of them into visual as well as sonic journeys. I’ve been inspired to create three Sacred Sound Infusion videos. The first, [Stella Maris](#), was also my first experiment in creating a layered Sound Infusion. This piece merges the energies of the Stars, the Sea, and the Divine Mother, focusing in particular on the “Seven Sisters” of the Pleiades star cluster and even incorporating the sound of the Pleiades. My next Sound Infusion video, [WATER PRAYER](#), was created for World Water Day 2024 and is a multidimensional journey to honor and commune with the Consciousness of Water. Finally, [ARIA](#), the most complex of my Sound Infusions to date, embodies the energies of the Element of Air and is musically embedded with a numerical code based on the numbers 3, 6, and 9. All of these videos will be screened at the Film Festival at [Earthstock Eco-Spiritual Summit](#), and they can also be found on my YouTube channel, [Danatomasino22](#). If you listen online, I highly recommend using headphones or earbuds to experience the full “multidimensionality” of these pieces.

## Heart Coherence and Sacred Sound

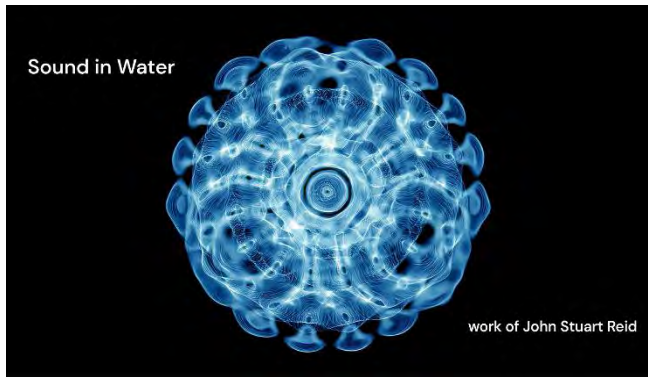

A unique aspect that I offer in my Sacred Sound work is combining it with my longtime work in Heart Intelligence and Heart Coherence. As a research scientist at the [HeartMath Institute](#) for 12 years, I have a background contributing to the [science of the heart's role in consciousness](#), particularly focusing on the “coherence” that emerges in the body-mind as people experience heart-based positive emotions. During my time at HeartMath, I helped to define and conceptualize the state of “Heart Coherence,” a system-wide state of synchronization and harmony in the body, mind, and emotions – essentially the body’s “signature of Love.” I still teach about the science and practice of Coherence in my own work, and I’ve now been involved in this field for over 25 yPears.

It was natural for me to combine my work in Sacred Sound with the Coherence meditations I was already facilitating. I enjoy working with groups to co-create an amplified coherent collective heart field, as a container for enhanced spiritual connection as well as personal and Planetary intention-setting. I often lead Coherence meditations focused on a specific theme and then offer my Sacred Sound as way to anchor in and integrate the frequencies we have been working with. I find that the two modalities create a beautiful energetic synergy that is often quite magical. I will be facilitating several themed Heart Coherence meditations and Sacred Sound Infusions live at the [2024 Earthstock Eco-Spiritual Summit](#): one titled [Water Reflections](#) (Thurs Aug 22), another on the theme of [Intimacy with the Infinite](#) (Fri Aug 23), and a [Global Coherence Meditation and Sacred Sound Infusion for Planetary Evolution](#) (Sun Aug 25 – this will also be featured in the online broadcast as part of the Global Synchronized Events that day). I will also offer an interactive workshop on [Heart Intelligence and Emotional Evolution](#) (Fri Aug 23, the day devoted to Health and Wellness). I look forward to sharing and co-creating with you at these offerings!

## Future Trajectories: Sound in Water and Planetary Gridwork

As my work in Sacred Sound continues to evolve, I have several visions for its future unfoldment. Another of my lifelong passions – and a part of my Soul Mission – is the study of Water as an advanced Consciousness, a multidimensional communicator, a bridge between dimensions. Although I believe we have so much yet to learn about water, it is clear that it carries and amplifies energetic information – including the information contained in sound frequencies. The science of cymatics gives us hints of how sound impacts water, showing us the intricate geometrical patterns produced by the interaction of sound frequencies with a liquid medium. As water constitutes a huge proportion of our bodies, as well as of the Earth itself, the implications are far-reaching. Ultimately, in the longer term, I also envision some aspects of my Sound work being done *in* Water. One application could be

providing "multimedia" experiences to people in pool-like settings combining elements of Sound, Light, Color, Geometry, Rhythm, and Harmony (perhaps reminiscent of a type of consciousness-expanding modality we had in Lemuria...!).

Another vision I have is to work with Sound in the context of Planetary gridwork, particularly *in* the Ocean, which I see as a Master communication network on the Planet that we have yet to

comprehend. While the Earth is made up of multiple energetic grids, ley lines, and power points, the majority of attention has been given to those that exist on land. Comparatively little focus has been given to the gridlines and energy points that lie in the Ocean – which makes up more than 70 percent of our Planet. Thus, it is my vision to use Sacred Sound to help activate, balance, and harmonize the Planetary grids and energy points of Earth within the vast information network that is the Ocean. I won't be the first to use Sound in this way, as our aquatic cousins, the Dolphins and Whales, have been engaged in this very Planetary service work for as long as they have existed on Earth.

If these longer-range visions inspire you or if you may have ways to contribute to their actualization, feel free to [contact me](#)! All [support](#) of my work in Sacred Sound is wholeheartedly appreciated.

### **Igniting the Divine in Us All**

Ultimately, the intention of all of the work I do is to open and awaken our connection to the Divine – and to the Divinity within us all. The Energies I work with empower people to embody their own Source Connection and Divine Essence – the Eternal aspect of ourselves – and its Infinite Intelligence, which is Love. It is in and through this Connection, first and foremost, that humanity will find the wisdom, power, and Love to truly evolve to its next level of consciousness. As we live consciously in and from our Divine Essence, a Planet of Peace, Compassion, Love, and Unity will be the natural and inevitable result.

**Dana Tomasino** is a researcher, healing practitioner, and musical artist working at the cutting edge of science and spirituality. Dana was a research scientist at the HeartMath Institute for 12 years, where she assisted in formulating the science of Heart Coherence and providing scientific validation of the heart's role in consciousness. She continues to integrate science and spirituality in her work, with a focus on Heart Intelligence and Emotional Evolution in personal and planetary transformation. Dana is a healing practitioner, certified in the healing art of Hawaiian Lomi Lomi bodywork, which she combines with her own unique energy-based modality, Source Light Radiance, and vocal Sound transmission. Interested in how sound and vibration can inform healing, consciousness expansion, as well as Planetary gridwork, Dana uses her voice as a conduit for higher-dimensional energies, offering multidimensional "Sacred Sound Infusions" as a vehicle for high-vibrational downloads from the Divine. She will be sharing her work at Earthstock Eco-Spiritual Summit in Crestone, Colorado (August 2024) and at Peace Week in Japan with Unity Earth (September 2024). Connect with Dana on her [Heart Magic](#) Facebook page (<https://www.facebook.com/dana.heartmagic>), her YouTube channel, [Danatomasino22](#), or by email at [dana.tomasino@gmail.com](mailto:dana.tomasino@gmail.com). # "Cosmic Waters: A Journey of Inner and Outer Transformation"

Have you ever felt the call of nature beckoning you to explore its hidden depths and ancient secrets? Imagine embarking on a journey where every step brings you closer to the mystical essence of the earth and its timeless stories. In "Cosmic Waters," an excerpt from my book "[Voice of the Portals I: The First Gateway](#)" I invite you to join me on a transformative adventure through the sacred landscapes and waters of New Zealand.

As you read on, you will discover how our interactions with the natural world reflect and shape our inner spiritual landscapes. This journey is more than just a travelogue; it's a profound exploration of the interconnectedness between humanity and nature, a dance of cosmic truths and ancient tales waiting to be uncovered.

## "Cosmic Waters—Aotearoa"

In December 2023, my husband and I traveled to New Zealand. We went to the heart of the South Island, fascinated by the stories of its mystical landscapes and ancient waters. Our adventure unfolded like a sacred Māori narrative, with each location being a chapter in a story woven from the fabric of the earth itself.

We started our journey at Lake Tekapo, nestled by the Southern Alps. The water was crystal clear and shimmered with the brilliance of liquid sapphires. In answering an unspoken call, we embraced the chill of the glacier-fed lake, an immersion that melded the essence of this sacred place with our beings.

A chill ran down my spine when I touched the cold waters. As I drank this pure water, it felt like the essence of the glacier lake merged with every cell in my body, creating a harmonious symphony.

Each drop of water seemed to hold a story of whales, mermaids, and hidden doorways between worlds. The ripples on the water's surface danced with these tales, revealing the secrets beneath them.

For more information and contact [click here](#)

## "Cosmic Waters: A Journey of Inner and Outer Transformation"

The lake became a sacred communion, and I was submerged in the moment. I felt a profound connection to the land's pristine heartbeat and a deep understanding that my experiences constantly echo the resonance of my being.

Our journey followed the curved path of the Haast River. From above, the river appeared as blue veins of the earth carrying cosmic DNA for all life. I sat by its banks and listened to the river's murmurs. Its eloquent language spoke of the unchanging nature of pure water, which reflects our innate selves.

The river became a cosmic storyteller, narrating tales etched in liquid whispers. It provided a timeless narrative of interconnectedness and the eternal flow of life.

As we stood at the shoreline of Lake Wanaka, I felt a sudden and irresistible urge. The rhythmic clapping of the lake's waves against the shore called out to me, and in a moment of pure connection, I felt compelled to sing. With the sun casting a warm glow upon the water, I offered my voice to the lake as a gesture of reciprocity between my spirit and the elemental essence that danced before me.

At our next stop, we witnessed the powerful Devil's Punchbowl waterfall and its symphony in full crescendo. The running waters thundered with a rhythmic heartbeat that echoed the cosmic blueprint flowing within every drop.

The surroundings were veiled in a cold mist, and I extended my hands to feel the pulsating energy. At that moment, I stood not merely before a natural wonder but within the embrace of an energetic force that transcended the boundaries of my ordinary existence.

Upon arriving at Rotorua, the air thickened with pungent sulfur smells, signaling the presence of volcanic springs. As we got closer, the earthy aroma engulfed me, and the warm embrace of the sulfuric waters beckoned unto me. Like alchemical cauldrons, the springs stirred an essence that transcended the tangible. When I dipped my fingers in the springs, I felt the pulse of creation, a potent reminder that the alchemy of earthly and divine forces also lay within the pungency.

Our journey extended to the majestic Pacific Ocean, where the horizon appeared to never end. With each crashing wave, I sensed the ancient tales carried by the ocean currents—the whispers of distant lands and forgotten civilizations. The Pacific became a conduit to the depths of time, an aqueous library where the narratives of countless epochs lay hidden beneath the waves.

The symphony of our journey took an unexpected turn on the shores of Waiheke Island's Blackpool beach. Instead of the vibrant dance of life, we encountered overwhelming algae blooms.

Usually adorned in natural beauty, the beach wore a sinister tone. The air was heavy with an unsettling scent, reminding us of the delicate balance that nature holds. Despite the

# "Cosmic Waters: A Journey of Inner and Outer Transformation"

apparent unwholesomeness, there was a strange beauty in the algae's patterns, a paradoxical dance between life and death.

During the end of our journey, a powerful hailstorm arose, and the waters said goodbye with a celestial spectacle. Hailstones were falling from the sky, each carrying the whispers of the storm's spirit.

Amid nature's fury, I stood still, feeling the frozen connection with the elements. In the heart of the storm, I found a sense of surrender to the unpredictable. I became a silent witness to the whimsical beauty that defines the dance between the earth and the sky.

As the sun set, we stood amidst the rejuvenated landscapes and watched a radiant rainbow arch across the sky, becoming the final stroke in nature's masterpiece.

Upon departing, I carried a sense of the flowing amusement woven by Aotearoa's waters. From glacier lakes to river murmurs and sulfuric springs to powerful waterfalls, the majestic Pacific, and even an unexpected encounter with toxic algae blooms, each form of water granted me a glimpse into the inherent energy of all things.

The waters of Aotearoa are carriers of ancient tales and cosmic truths, and they have become a liquid tapestry where the ordinary and the extraordinary weave in a dance of timeless wonders.

\*\*\*

While you journey through "Cosmic Waters," may you be inspired to explore your own connection with the natural world. Embrace the transformative power of nature's elements and listen to the whispers of the earth. Let the ancient tales and cosmic truths guide you in your spiritual journey, reminding you that true change begins with ourselves and how we interact with our environment. Share your own stories and insights with the world and join the movement to regenerate and sustain our beautiful planet. Together, we can create a harmonious and peaceful future.

Thank you for being part of this journey.

## **REALITY REVOLUTION**

We are standing in the gateway of a reality revolution.

A new frontier in consciousness is emerging which has the potential for unprecedented personal and planetary healing and evolution. In these hugely exciting and challenging times, we are opening up a different arena in terms of what comes next for humanity. The foundational element for this Reality Revolution is 5D. Divinity and Unity alchemised, grounded, earthed, and integrated.

5D is a new frontier in consciousness and humanity, a multidimensional overhaul in how you perceive, experience, and materialise your reality, and how you can maintain the resource to influence and change it. 5D manifests revolutionary time in truth, love and peace. It grows metaphysical ease, miracles and mysticism, evolving you into sacred existence and powering your divine destiny, so that your highest intention very quickly manifests as a reality. Yet this is the domain of spiritual, intellectual, entrepreneurial, and systems genius.

On a personal level, 5D creates an authentic spiritual foundation for a perpetual shift in your consciousness—a shift that ignites you into living from your highest frequency in every aspect of your life where you align with, embody and empower unprecedented spirituality and intelligence. On a global level, 5D enables you to operate as a pro-evolutionary, pro-love, pro-humanity being, so that you can fulfill your highest frequency destiny, and make your own unique contribution to the evolution of humanity and earth. You wake up—and consciousness, reality and intelligence become more because finally you are more, and you discover a very different story: one of love and truth that secures evolution and redefines our future with unity, mobilisation, and activism.

## **EMBRACING NEW CONSCIOUSNESS**

In order to fully embrace and embody this monumental shift in reality, you have to first address and overcome your 3D and 4D programming.

3D is your inherited low-frequency signature and its imprints are held in your biology, your heart and your mind. It is the perpetual hijack of your extraordinary spirituality, dreams and freedom. In order to unravel yourself from 3D, you have to shift and reconfigure the imprints from your inherited toxic stories. You must stand strong in all of your wounds, sensitivities and fears, and transform any dramas that play out. You must be immaculate as you look at what is presenting itself in the live feed of your life, so you can tackle your beliefs, thoughts and feelings to dismantle 3D in every corner of your reality. 4D programming is found wherever you value intellectualized knowledge over heart-aligned and soul-based wisdom. 4D is seen in conceptualized and disembodied spiritual practices that do not impact the way that you show up in the world, and are not integrated into your day-to-day reality. These superficial practices lock you out of your dream of transformation and awakening, because as soon as you step away from them, you are back in a 3D reality. You may have switched on the dream momentarily but it cannot survive in the inverted modern world. To move beyond 4D, you can utilize consciousness technologies that have not been contaminated in duality, fear and negative patriarchy. These practices move you into a true and vital understanding of relationship with yourself, with who you are, and with what reality is. This evolutionary wisdom whispers the true story and journey of humanity and universe. They move you into 5D.

5D is a highly impactful spiritual initiation and reality awakening process. You have many entry points into 5D, and the catalysts are your authentic spiritual and transformational practices. It is hugely exciting to consider what profoundly complete, embodied, and aligned practices do. These are your foundations of conscious change, and when practiced in immaculate detail, you can acknowledge, awaken and live in vast consciousness resource. They require your dedication on a day-to-day basis to evolve your awareness so you can take responsibility for your thoughts and your feelings. When you do that, you will not be hijacking the 5D, sacred, mystical, extraordinary work of your breakthroughs. It is through these practices that you earn your greatest metaphysical and spirituality freedoms—they honour sacred humanity and earth, and your existence and service on this planet.

My own unique journey is one that is progressed in spirituality. Memories of ancient lives, experiences of contact and meta-physics, dreams of a new humanity were all part of my

childhood sensitivity. I was born in England, into an ordinary family of extraordinary healers and physical mediums. These abilities were a gift that would train me for service to others. When I work with people, I intuitively know how to show them their unique destiny beyond toxic attachments that can diminish time and life. I am simultaneously the wound-weaver and dream-weaver. I have a unique gift for holding the wound and the dream—acknowledging stories, and working with time-loops to support whoever I am working with become free.

The rich tapestry of my work is drawn from numerous ancient traditions. I have lived on the Pyramids Field. I now live on the Medinet Habu Temple, enmeshed in Egyptian village Sufi, and from mystical Islamic culture I have drawn sacred shamanism and profound sacred teachings. Egypt deeply resonates on my own journey now and it did long before this lifetime; I have memories of past-life incarnations in ancient Egypt which strongly influence my teachings today. We are masters of creation only if we meet creation. There is no where in the world like Ancient Egypt as the cradle for modern civilisation, spirituality, healing, human potential, and psychology. Here the archives travel deep in time. Here the architecture mirrors each step we take. Time and prophecy is written here for us if we are prepared to listen to another story. The healing of ego takes time. My legacy of field work and research at primary power sites, not just in Egypt but worldwide, progresses those I work with into a revolutionary 5D reality structure.

## **EVOLVING TO 5D**

3D programming metaphysically touches our lives and snatches from us the peace we find in knowing ourselves. If we reach 4D instead of graduating to 5D, our evolution-flow is impeded. And if we hit 5D, we must maintain it by choosing the right journeys. We must sustain evolution-breakthroughs. We must prepare ourselves in spiritual warriorship to dismantle the history of enslavement that dominates and threatens our future. The continuing elite power storyline reinforces this history through many vehicles of programming, and often unknowingly we perpetuate it. We carry this storyline in us and with us. These anti-evolutionary programs and codes can be disrupted and broken. The work is now and it is within. It is the biggest spiritual battle we face. No matter how awake we perceive ourselves to be, there is always this work to be done that secures freedom from bigger picture control agendas and collective programming.

Our imprints, wounds and dreams are required to surface on both a personal and global level so that they can be illuminated and progressed into a revolutionary reality. When we all step into a deeper understanding of what consciousness is and what it can do for our reality, we can start to open the doors of possibility about the future of humanity and earth. We acknowledge the sacred, and ground this miraculous way of being in the hearts of our physicality and into the hearts of our lives, and then ultimately, we ground it in the hearts of our communities and the heart of our world. This manifests extraordinary evolution.

The Reality Revolution that I share with you is not merely a vision of 5D. It's a roadmap for initiation and service, for maintaining and expanding your life force, light and truth, for your awareness and love. These sacred truths underscore the bigger questions of existence, which have been deliberately hidden from us by 3D programming and mainstream spirituality. Reality Revolution is an opportunity to step into a new frontier, questioning and reconfiguring everything you take for granted—and often accept—as reality. It's an invitation for you to step into and be part of this new frontier of evolution, so that you live an authentic life, acknowledging your highest frequency purpose, and fulfill your destiny as a 5D human being, creating new, revolutionary 5D frontiers.

We have multiple choices and there are many paths. If you choose truth and love, you are choosing divine consciousness. You are the step and leap for humanity. Your unprecedented awareness reconfigures reality to influence profound change. Here is an opportunity to live and manifest beyond perpetual hijack of evolution. You demolish the cycles of pain that separate. You awaken the power to mobilize authentically against toxic elite power structures. Your life takes on exceptionally rich, new purpose. Your previous attachments fall away. With every unlock comes light, life force and wisdom. Your journey is safeguarded, for nothing destroys you. You sacred-unite to know there is more. You are the brilliant, shining exception to the conventional rule. You access extraordinary human gifts to step into the power, transform wounds and strategies to collectively experience the dream. You are more. You become more. You achieve Reality Revolution. You are the game-changer, and gate-keeper of a new world.

Ash describes, invites, and initiates ancient Egyptian prophecies that protect all sovereign and ethical legacies, architecture of all divinity and peace, revolutionary time-lines and First Creation archives. The Great Pyramid enthrones the galactic medicine of eternity for maximum disruption of, and freedom from dysfunctional timelines and systems. Ash unites subjects and archives of deification and incarnation, united mobilisation, radical contact, revolutionary timelines, new soul initiation, and new human psychology.

Tracey Ash lives in the temple of Medinet Habu, ancient Egypt. 1999- innovating mobilisation, educational events and pilgrimages on consciousness, ancient history, human origins, genius, time and prophesy. El Bawaba, Egypt is her spiritual and entrepreneurial retreat-hotel supporting consciousness education and mobilisation of New Earth.

**Introducing "*Healing With Ki*"**  
**a self-empowerment oracle deck and companion book created**  
**by Drawing Down the Moon System of Reiki founder, Lisa Ayres**  
**Available Now**

[Surrey, BC, June 4, 2024] - In a world where the search for personal spiritual enlightenment and inner healing has been taken up by so many, Reiki Master, practicing Pagan and Intuitive Healer, Lisa Ayres, is proud to announce the release of her comprehensive intuitive system, ***Healing With Ki***. Now available, this transformative oracle deck and companion book are designed to inspire readers to connect personally, and deeply with Universal Life Force also known as ***Ki*** (AKA Chi, Prana, Akasha, Qi, and more in multiple languages).

***"Healing With Ki"*** is not just an oracle deck; it is a **holistic approach to personal evolution and inner healing**. Lisa Ayres, a dedicated teacher of Reiki and spiritual growth, was compelled to create this powerful tool during the COVID-19 pandemic. She received a vivid and directive dream on the night of April 12-13, 2021, which guided her to embark on this transformative journey. The dream made it unequivocally clear that the time had come to share this knowledge with the world.

Through tireless effort and a lot of Universal support in the guise of friends, family, colleagues and even challengers, Lisa has completed the development of her ***"Healing With Ki"*** system. Her collection of inspired metaphysical tools are now poised to empower readers across the globe to harness the full power of Universal Ki.

***"Healing With Ki"*** includes a beautifully crafted oracle deck of 54 cards, a 300+ page companion book, and lots of bonus online material. Each card offers an exercise, meditation, spellwork, or ritual designed to help readers address inner imbalances and align with higher frequencies of Ki. Through diligent and honest engagement with the cards, **readers can rapidly expand their spiritual growth** and strengthen their connection to the Source of all life.

To enhance the user experience further, many cards are equipped with unique QR codes that grant access to supportive videos, audio recordings, and additional resources on Lisa Ayres' various webpages and YouTube Channel. These resources are intended to deepen the healing journey and raise the reader's frequencies, making ***"Healing With Ki"*** both versatile and indispensable! **A must-have tool for those seeking inner transformation.**

In Lisa's words;

***"When we listen to, and connect with, Universal Ki – magick happens! I know that the people of this planet are ready for these messages and this depth of connection. It's time to make the magick happen on Earth!"***

**"Healing With Ki"** is not just any oracle deck; it's an intentional step towards self-discovery, healing, and spiritual insight. Embark on a profound journey of inner transformation and connection with Universal Life Force.

For more information about **"Healing With Ki"** and Lisa Ayres, please visit [DrawingDownTheMoonSystemOfReiki.ca](http://DrawingDownTheMoonSystemOfReiki.ca)

**\*\*About Lisa Ayres\*\***

Lisa Ayres is a seasoned Reiki Master-Teacher and spiritual guide dedicated to empowering, guiding, and educating people as they walk their path of self-discovery and healing. Her personal journey, spanning more than 25 years of working directly with Ki, has led her to create the transformative **"Healing With Ki"** Oracle Deck and Companion Book. Her comprehensive metaphysical tool is now available.

If you're curious about classes, you can find [details here](#).

humanity for millennia and keep us from aligning with our hearts and Universal Law. These seven paradoxes are Love/Not Love, Conscious/Mechanistic, Free Will/Determinism, Oneness/Separation, Time/Timeless, Upward Spiral/Destruction and Abundance/Scarcity.

Paradoxes only exist because we do not yet understand, nor act from, our true nature, in trust of a conscious loving universe. When we access the Trust Frequency the paradoxes disappear.

Overarching Paradox: Matter Appears Real/It is an Illusion

Paradox resolved: Leading-edge quantum science

The following shows how the ten assumptions resolve the paradoxes presented by the collision of the two belief systems/paradigms/frequencies. Until these paradoxes are resolved in the hearts and minds of humanity we remain at the lower vibration of fear, separation, scarcity and the dualities of victim/perpetrator, good/evil, right/wrong and we cannot access the dimension/frequency where the laws are expanded and the New Earth is a reality.

NOTE: The LAWS in the different frequencies are DIFFERENT, creating the apparent paradoxes.

Paradox 1

Assumption 1 - Paradox: There is only Love. What about war, etc – All those things we see as Not-Love

Assumption 2 - Resolved: The Nature of that Love is that it gives us everything we ask for.

# WELCOME TO THE TRUST FREQUENCY

CHANGE YOUR ASSUMPTIONS AND THE WORLD CHANGES WITH YOU

[www.TheTrustFrequency.net](http://www.TheTrustFrequency.net)

## **Paradox, Resolved.**

### *The Trust Frequency: Ten Assumptions for a New Paradigm*

Leading-edge science along with humanity's evolving consciousness has created a "frequency collision." Science is discovering the "true nature of the universe" and humanity is resonating to its "true nature" - both of which collide with the old mechanistic reductionist science view of reality and beliefs about humanity's nature.

An evolutionary leap in consciousness is occurring now as the two aspects of humanity converge - the divine self and the ego self - and a synthesis is bringing "Heaven on Earth" into the physical plane in social interaction and systems - Living Divine Action in Society NOW.

The ego self TRUSTING the divine self and acting accordingly brings something new from the melding of the two parts - the true human, Homo Sapien-Sapien - creating an unprecedented reality of ease, abundance, balance, freedom, generosity and joy.

Connie Baxter Marlow and Andrew Cameron Bailey in their book "THE TRUST FREQUENCY: Ten Assumptions for a New Paradigm" present a paradigm that comes from an Indigenous cosmology/quantum science synthesis and resolves seven apparent paradoxes that have plagued

## Paradox 2

Assumption 3 - Paradox: We create reality. What about survival of the fittest?

Assumption 4 - Resolved: The 7 As – The characteristics of human consciousness of Awareness, Assumptions, Attention, Attitude, Alignment, Action and Allowing are our requests to the Universe. They determine our vibratory rate, thereby our reality. It's physics!

## Paradox 3:

Assumption 5 - Paradox: There is only free will. What about "chance".

Assumption 6 – Resolved: Circumstance loves us. Everything happens for us not to us.

## Paradox 4:

Assumption 7 - Paradox: Time is an illusion. But is real for us here .

Assumption 7 - Resolved: Lower frequency time appears real, higher frequency time doesn't exist.

## Paradox 5:

Assumption 8 - Paradox: There is only ONE. What about "the other"

Assumption 8 - Resolved: Lower frequency separation appears real, higher frequency oneness is real.

## Paradox 6:

Assumption 9 - Paradox: Humanity is on an Upward Spiral. Looks like HELL!!

Assumption 10 - Paradox Resolved: Heaven on Earth - moving into higher frequency. Convergence of ego and divine selves.

Paradox 7:

Current Reality: It's a planet of limited resources.

Trust Frequency Reality: Unlimited Abundance. The laws are different in the higher frequencies – e.g. Jesus' "miracle" - The Loaves and Fishes.

### **Synopsis of The Ten Assumptions:**

We are One and we live in the Now, in a conscious loving Universe where there is only Love. The unconditional nature of that Love means it gives us everything we ask for.

The 7A's – Awareness, Assumption, Attitude, Attention, Alignment, Action and Allowing are our requests to the Universe. Each of these carries a frequency, which has its own laws.

Free Will enables us to choose our frequency and thereby our reality. The true, abundant, joyful nature of the Universe is available to anyone who chooses The Trust Frequency.

Connie and Andrew will be presenting a workshop at Earthstock with Maureen Edwardson, originator of Inner Resonance Technologies, "Realizing Prophecy Through Accessing the Trust Frequency" and will be screening their film "IN SEARCH OF THE FUTURE: What do the Wise Ones Know" – both on Tuesday August 21 in the Colorado College Conference Room. They will be on *Sparkling Conversations* with Shannon McArthur. Click for details - <https://Bit.ly/EarthstockEvents>.

# Sparkling Conversations' Inspirations

By Shannon K. McArthur

## Introduction

When concepts are illuminated in dialogues between amazing people focused on the future, possibilities sparkle and ideas turn lights on! Past and proposed presenters on Humanity Rising are coming together in Sparkling Conversations on topics inspired by the themes of the days of the globally broadcast [EarthStock EcoSpiritual Summit](#), August 19-25, 2024. Below I will tell you how, why, and what we'll be talking about - who can be found in the "[Storybook](#)" found [here](#).

I find it fascinating to see how things come to be, and enjoy tracing the source of inspirations. I'm seeing the pieces of the puzzle, and it's exciting to share what I see because we're all parts of the puzzle. The more we share the vision between us, the easier we can help the pieces fall into place. Here's some of what I'll be sharing:

- MOM, synchronicities and guidance
- My MOM-given name - SonLight Sparkling on the Waters
- Humanity Rising & The New Paradigm Institute
- Jim's Nuggets
- The AfterChat & OtherNetworks.org
- Sparks Ignite Sparkling Conversations

## Background

### Who's MOM and Who am I?

It appears I've been in deep training – guided, but not by anyone you could put your hands on... I call Her MOM, evidenced by the Magic in Ordinary Moments that happen in everyone's lives. She has Her way with us whether we know Her or not; believe in Her or not; honour Her or not. I gotta say, however, She sure can be fun when we pay attention to Her!

I'm a storyteller. I tell stories of MOM in an effort to inspire people to look in their own lives for evidence that MOM is influencing their lives. One of my favourite stories, one that has influenced my life strongly, is how MOM gave me my name – SonLight Sparkling on the Waters. At 3:30 in the video [My Name, Who I am and What's my Job](#), I tell the first part of that story. The next part of the story happened years later - it was a clarification, from *Sunshine* to SonLight. I'm delighted my awareness enabled those messages to enlighten me. I *am* SonLight Sparkling

on the Waters, but it was much too pretty (nobody would believe it wasn't simply an act of vanity) so I decided to figure out why I'd been given it. I came to realize that all of us are sparks of Our Great Father (Sol) on the Waters of our Great Mother (Gaia) and, when we come into our Great coherence, Our light will embrace them both! I believe Sparkling Conversations are steps in that direction, and are important because we will not make progress without engaging in conversation, working together in practical "real world" applications and spreading knowledge.

## Humanity Rising & The New Paradigm Institute

In May of 2020, the lockdown happened, and I found myself spending afternoons on the beach behind my mother's seniors complex. Because of the US/Canadian border closure, instead of basking in solitude by a pool I was sleeping on my mother's home-office hide-a-bed, trying to stay out of her way. The afternoons on the beach were glorious, though chilly ([a video](#) from back then.) And, when I found Humanity Rising (HR), mornings were glorious too, in different ways.

[Humanity Rising](#) (HR) is a free, daily webinar (except in August and December) offered by Ubiquity University, hosted by Dr. Jim Garrison, schooled in philosophy, theology and history. He is also very learned in politics and is a good friend of Danny Sheehan, a lawyer involved in the Pentagon Papers, the Watergate Break-In, the Silkwood case, John Mack and others. He's currently working on the UAP /UFO Disclosure bipartisan bill that congress passed in December '23, and continues engaging with. Jim and Danny are both part of the [New Paradigm Institute](#), working to make UAPs an election issue, and having ETs be accepted as common knowledge.

## Jim's Nuggets

Along with brilliant, driven people, Jim brings his passions and adventures to Humanity Rising every morning. He is so eloquent and intelligent that we talked in the AfterChat (more about that below) about compiling a compendium of his words. That inspired me to start writing [Jim's Nuggets](#) when Jim moved to Washington in September '23. It's a transcription of his words put into text to make it accessible for busy people to read, rather than his words being hidden within 1.5 hour videos. In December, I turned the blog around and am now looking for a sponsor to help get the first ebook/volume published, with the second, January to July '24, in the works.

## The AfterChat & OtherNetworks

The AfterChat began back on Day 60 of Humanity Rising when Stanley Pokras put an invitation in the chat to Zoom over to his place after class – 15 of us showed up. Over 4 years we've had over 950 episodes of HR (with 59 fewer AfterChats) and I've become the moderator. Both are because Stan is the kind of man he is – a connections and ideas guy, inspired by his experience of facilitating connections for people in his shop: "Everything for Everyone". Fascinated with the diversity of people and presentations he heard on HR, he began "[OtherNetworks.org](#)," dreaming

of connecting humanity. That wiki is now [the Archive of Humanity Rising](#); Stan curates and populates this library daily, with links to all the episodes, speakers, AfterChats and more.

MOM was involved on the day the AfterChat began! On Day 60, that fateful day, the title of Humanity Rising (unnoticed by Stan) was “Connecting the Dots.” MOM used Stan’s curiosity and fascination with connections to inspire him to put his message in the chat that day, and changed the world for a lot of people.

In the AfterChat we also talked about how we might help create more connections between speakers, some of whom spoke on subjects quite similar to others, but from different perspectives. We were curious what would happen if they got together. Then we wondered what would happen if presenters from different “silos” (or spheres) of knowledge came together in conversation...

With over 1700 presenters, we have lots to choose from, but limited ability to search the data. While Stan has an ingenious categorization system, it requires a lot of time, familiarity and ability. We have only one Stan, and he’s elderly. We could lose hope of finding our way forward, except that MOM has the ability to weave wonders. AI could be the ticket, but we need people who are more passionate than in need of money, or some other characteristics that will be perfect in retrospect. That’s how MOM is most often noticed - looking back we see how everything that happened was perfect.

## Sparks Ignite Sparkling Conversations

In January, in conversation with Michael DiMartino, he mentioned putting together an event in Crestone, Colorado, during the month of August. I love Colorado; over the space of 3 years, I went 4 times to Colorado from Kamloops BC (25 hours by car), and I loved the events I attended there with my shaman friends, Mary and David (LionFire) Leonard. Michael continued talking as I turned those precious moments over in my mind, and then I thought of the upcoming month of August with no Humanity Rising. EarthStock, in the 3rd week of August, would be at just the right time.

My mouth opened and I watched myself talk myself into the creation of the 7-day series of Sparkling Conversations inspired by the themes of the days of the Summit, to be broadcast to the world at the same time as Humanity Rising usually is; with the AfterGlow following, in which the audience gets to be part of the conversation. It would provide a small island of familiarity for my community during the long lonely month. Other subjects discussed in the AfterChat were how to help promote Humanity Rising, and creation of interesting content (like our Saturday “Deep Dives”). Both are happening in EarthStock’s Sparkling Conversations! I would never have been bold enough to consider doing something like this if I hadn’t been well guided and trained, and aware, in that conversation with Michael. Thanks, MOM!

Themes of the days of the [EarthStock EcoSpiritual Summit](#), and the titles of the Sparkling Conversations are as follows:

Monday, August 19

Women and Youth - **Transformation of Education for Future Generations**

Tuesday, August 20 - the birthday of the first white buffalo calf 30 years ago

Unity Through the Arts & Culture - **Becoming a Coherent UniVerse - One Song**

Sunday, August 25

Globally Synchronized Events - **Time and the Nature of Reality**

Learn more about the Sparkling Conversations in the Storybook linked on [the website](#).

Perhaps these are all steps towards the creation of the network of [Our Heart Gardens](#) (OhGs), a concept I've been holding for about 10 years. I am just one person, and *I could never **make*** something of that magnitude happen, but I like to think that maybe OhGs is a point of synergy, woven by MOM; a future event that pulls us, coming into coherent alignment, toward that beautiful time in which we all live joyfully in peace in a world that works. [She promised Peace...](#)

As I say, "I think that's good," and go to close my computer for the night, anticipating a proofread in the morning, I glance at the clock and I see: 11:23. MOM says Yes! and I smile...

## Who We Are

DIVINA WORLD is a foundation - 501(c)(3) non-profit focused on eradicating the disparity & lack of access to Health & Wellness resources for our Indigenous, Hispanic/Latino and other marginalized peoples, especially for our Veterans, Farmworkers, 2nd Chancers and our Cancer Warriors within these various communities.

DWF is dedicated to acknowledge, enhance and celebrate the lives of our most under-served communities through an overall holistic Wellness 360 approach and the use of Tech, Music, Events, Edu-Tainment and Media to disseminate the latest impactful information and facilitate access to relevant resources & services and whenever possible, innovative products and toolkits.

The team at DIVINA WORLD Foundation, which includes not only our Founder, Board of Directors, Advisory Council, sponsors, donors, community members and volunteers is comprised of

Change Makers, Advocates, Solutionaries and Activators...  
and we're just getting started!

## WHAT IS G17Eco?

G17Eco is a partnership-driven ecosystem platform that helps any organisation and nation map, monitor, measure, manage and market their sustainability performance end to end, and the ability to share data directly with their internal and external stakeholders from one interoperable platform.

We support G17Eco members with:

- Sustainability Education, Training and Accreditation
- Sustainability and Technology Consultancy
- Digital Reporting Tools including [Company Tracker](#), [Portfolio Tracker](#), [Materiality Tracker](#), [Emissions Tracker](#) and [Assurance Tracker](#)
- Gaining access to a global [Rewards Marketplace](#) with greater discounts to sustainable solutions and finance.

### END TO END REPORTING CAPABILITIES AND BENEFITS

Company Tracker is a scalable solution, with benefits that grow with your organisation's sustainability reporting needs.

Company Tracker harmonises all the major globally recognised standards, frameworks, ratings, and regulations into a single digital taxonomy.

Choose from over 3,000 metrics from 49 global standards and frameworks including SDGs, HSB, GRI, UNGC, SASB, TCFD and CSRD.

Company Tracker empowers you to:

- Cover all sustainability areas - your contribution will be measured overall to the 17 SDGs
- Share with your stakeholders - embed a live SDG benchmark graph on your website, reports, and PPTs.

### NAVIGATING YOUR PATH TO SUSTAINABLE IMPACT

Our Materiality Tracker assessment tool employs a comprehensive methodology to identify and prioritise the key environmental, social, and governance (ESG) issues for your company.

The tracker collects and analyses data from diverse sources, including industry reports, news articles, and regulatory documents, using advanced natural language techniques.

Materiality Tracker also incorporates industry benchmarks to ensure accuracy and relevance with the organisation's context to produce a more than a mere checklist result.

Contact our team for more information.

### CONDUCT YOUR ASSURANCE LOOP DIRECTLY FROM ONE INTEROPERABLE PLATFORM.

Companies big and small can now conduct their assurance with any third party verifier, directly from Company Tracker to Assurance Tracker.

**For companies**  
Collect, process, aggregate and share data from departments, regions, subsidiaries, sites, assets, branches and suppliers in preparation for filing and sharing your disclosure with any stakeholder. Now you can also take the next step in your sustainability journey with Assurance Tracker to conduct your assurance loop, directly from one interoperable platform.

# MAKING THE TRANSITION TO SUSTAINABILITY AND ENTERING THE INCLUSIVE GLOBAL GREEN ECONOMY

For Every Kind of Entity & Institution

## PROFESSOR ALAN TRATNER

### GREEN2GOLD INCUBATORS AND WORKSHOPS
